U. S. AID IN WAR ON REDS IS NOW SOUGHT

W. K. VANDERBILT DIES IN PARIS

Leaves Fortune Estimated At
\$50,000,000 to \$100,000,000

LED FAMILY TO SOCIAL TOP

Body Will Be Interred on Staten
Island

PARIS.—(By United Press.)—
The funeral of W. K. Vanderbilt,
Sr., who died here Thursday night
will be held in the American Church
of the Holy Trinity here at 11 a. m.
Monday.

Arrangements were made to place
the body in the mortuary chapel of
the church until plans can be made
to have it taken to the United States.
Final interment will be in the Van-
derbilt mausoleum on Staten Island.

Estimates place the value of the
estate left by William K. Vanderbilt
at between \$50,000,000 and \$100-
000,000. The fortune left by his
father divided between seven brothers
and sisters, was placed at \$300-
000,000. By alliances in marriage
with other wealthy families, the total
fortune now in the hands of the various
branches of the Vanderbilt fam-
ily has been increased so that it runs
into the billions.

SOCIAL LEADER

William K. Vanderbilt, while ad-
ding to the family fortune thru his
business dealings, was more noted
for his establishment of the Vander-
bilt on the top rung of the social
ladder. He was also noted as a
social leader and one of the finest
stables of race horses in Europe and
motoring and yachting.

He was born in 1849 on Staten
Island and was educated by private
tutors and later abroad. It was thru
acquaintances made in Europe
among social leaders, that he was
able to pave the way for the Vander-
bilt social success in America.

He went to work as a clerk in the New
York Central offices when 19 years
of age.

His first plunge into the 400 was
on his return from Europe in 1878
when an elaborate reception was
given with many titled foreigners as
guests. Miss Alva Smith, of Mobile,
Ala., attended the reception and later
married Vanderbilt. Miss Smith is
now Mrs. O. M. Belmont, leader
in the work for woman suffrage.

MARRIED TWICE
The Astors, who controlled the
400, did not recognize the Vander-
bilt until 1879 when the Vanderbilt
ball, recognized as the most impor-
tant social event in decades in New
York society, was given.

That marked the breaking up of
the 400 and established the Vander-
bilt.

The first Mrs. Vanderbilt obtained
a divorce in Paris in 1895, after an
estrangement of two years, previously,
said to have occurred on a cruise of
the Mediterranean.

A Nellie Neustetter of Paris, was
named. Vanderbilt in 1897, married
Mrs. Louis Morris Rutherford, a
daughter of Oliver Harriman.
The former Mrs. Vanderbilt married
Belmont a year after the divorce was
granted in Paris.

A year after the war, Vanderbilt
contributed large sums to hospitals
and other war relief work.

RAIL MEN ACCEPT UNDER PROTEST

Seven Unions to Take Vote on
Wage Awards

CHICAGO.—(By Associated
Press.)—Rail executives left
Chicago Friday following a three
day conference at the conclusion of
which it was decided by all of the
recognized 15 unions, except one,
the Order of Railway Telegraphs,
to accept under protest the railway
labor board's wage award, seven
voting for a referendum of the in-
dividual unions.

The telegraphers referred the
award to their membership with a
strike proposition. The other 14
unions expressed the intention of re-
fusing their cases before the board.
It was estimated by union leaders
that the tabulated returns on the re-
ferendum vote would not be made be-
fore September 1, when the railroads
revert to private ownership.

AUTHORITIES PROPOSE TO STOP ATTEMPTS TO "SHOOT" NIAGARA FALLS

NIAGARA FALLS, N. Y.—Bobby
Leach, who successfully shot the
Canadian falls in a steel barrel in
1911, has expressed his intention of
trying it again in the near future.
The tentative date set by him is
August 25. He will make the trip
this time in a specially constructed
barrel to be made by a Canadian
steel company, which has offered
a prize of \$2500 and stock in the
company.

Police Chief John A. Curry and
Mayor Thompson declared Friday
they will take steps to prevent any-
one attempting the trip anywhere in
their jurisdiction and the provincial
police of Canada announce they will
do likewise.

ALLEN-CO POPULATION IS 68,203

CENSUS FIGURES ANNOUNCED

Increase of 20.5 Per Cent in 10
Years is Shown

MUCH GREATER IN THIS CITY

Van Wert-co Has Decrease Since
Last Census

Census figures announced at
Washington last night show Al-
len-co has a population of 68,
203, an increase of 11,623 or
20.5 per cent during the last 10
years.

These figures are below the
estimate for the county, many
statisticians believing they
would be well over the 70,000
mark.

The figures announced for the
city of Lima, which is included in
the population of the county, given
above, showed a population of 41,
306, an increase of 10,789 or 35.4
per cent. This indicates a very small
growth in the outside territory. De-
ducting the increase in the city of
Lima from the total increase in the
entire county, it will be seen that
the outside territory had a growth of
only 834 during the last 10 years.

A number of reasons are given for
this small increase in the rural dis-
tricts. The war took away many
men who did not return, and the
high wages paid in factories in
cities contributed to the cityward
movement in recent years, especial-
ly since the war started. The latter
is borne out by the acute short-
age of farm help not only in this
county, but in all sections of the
state.

The census of Van Wert-co also
was announced. The population was
shown to be 23,210, a decrease since
1910 of 909 or 3.1 per cent.

RESOLUTE LEADING FOURTH RACE

Yankee Yacht Looks Like Easy
Winner Over Shamrock

ABOARD U. S. DESTROYER
COLDSBORO.—(Via wireless to
United Press.)—The challenger showed
her heels to the challenger for Amer-
ica's cup in the first two legs of Fri-
day's race—the fourth of the series.
Shamrock IV was unable to pass
the American boat on either of the
first laps after Skipper Adams cross-
ed the starting line. A 15-knot wind
was blowing and the yacht fairly
flew thru the water. Resolute's
lead on elapsed time on first time
was one minute 48 seconds. Sham-
rock cut down Resolute's lead
slightly during the second ten miles,
the elapsed time being:
Shamrock 50:18.
Resolute 51:02.

SANDY HOOK, N. J.—By Associated-
Press.)—Resolute, defending
the America's cup, dashed first
across the lines Friday at the start
of the fourth international yacht
race which she must win to prevent
Sir Thomas Lipton's Shamrock IV
from capturing the priceless pewter
trophy.

Shamrock IV crossed about half a
minute behind the defender, accord-
ing to unofficial timing.
With the starting signal sounded
at 1 p. m., Resolute crossed at
1:01:31 official time and Shamrock
IV at 1:01:55. Then both plunged
forward on the first 10 mile leg of
the 30 mile triangular course—a
beat to windward down the Jersey
shore.

\$267,560 WHISKY CARGO SEIZED

U. S. Agents Confiscate Stock on
Track Near Toledo

TOLEDO.—(By Associated Press.)—
Federal agents Thursday seized
the biggest whisky seizure in
the history of this section of the
state when they confiscated liquor
valued at \$267,560 on a railroad sid-
ing at Lang, Ohio.

The whisky, 14,000 quarts of a
good quality, was consigned to the
Voevin and Lipton Company, of
Montreal, Canada. It was shipped
by the W. E. Haines Distilleries at
Glen Creek, Kentucky. Federal men
here say the liquor was not accom-
panied by a permit.

The federal agents did not know
the liquor had passed thru Toledo
until it had several hours start. They
obtained an automobile and raced
with the carload of liquor which they
overtaken at Lang.

The consignment was of 1,285
cases and each case contained 12
quarts valued at \$12 each.

Cox In Controversy With Friends Over His Name

COLUMBUS.—Governor Cox is
having a spirited controversy with
his close friends as to exactly what
names his parents gave him.

It centers around the middle
initial "M." Cox claims the "M" stand for
Middleton. Charles Morris, his sec-
retary, insists that the family Bible
records show his full name as James
Monroe Stokes Cox. Still others are
arguing that "M" is for McMahon.
"It does seem that a man ought
to know his own name," Cox said
Friday.

FIVE ARE KILLED IN BELFAST RIOT

Hundred Wounded in Street
Fighting; Troops Hold City

COMMONS HEARS APPEAL

Irish Republic on More Drastic
Action Discussed

BELFAST.—(By Associated
Press.)—Soldiers were compelled
to use machine guns against rioters
in fighting through the city Thurs-
day and early Friday morning.
In the Falls Road district the
Sinn Fein men were sniping soldiers
and police from roofs and windows
of houses. The troops returned the
sniping with machine gun fire. At
least 100 persons in last night's fighting total
more than 100. Thirty arrests were
made.

Three Unionists were shot dead by
Sinn Fein snipers and another man's
head was blown off. A man helping
to carry the body of one of the dead
men into a house was shot dead.
The disorders which started Wed-
nesday after some Sinn Fein workers
in a ship-yard were attacked, were
renewed at frequent intervals yester-
day. Throughout the afternoon the
military was engaged on Falls Road
in erecting barbed wire entangle-
ments across the fronts of shops
wrecked in Wednesday's disturbances,
and posting large detachments of
troops at certain danger spots.

Soldiers with fixed bayonets pat-
rolled the disturbed streets and
many demonstrations which might
have led to serious results were thus
interrupted.

ISSUE IN COMMONS

LONDON.—(By Associated Press.)—
"I regret to have to say that par-
liament and the kingdom must brace
itself to face a bitter period in Irish
history as there will be a determined
organized attempt to establish an
Irish republic by means of murder
and intimidation," declared Sir
Hamar Greenwood, chief secretary
for Ireland, in the course of a de-
bate on Irish affairs in the house of
commons Friday. He appealed to
all parties and creeds to support the
government, predicting the situation
would become still worse than at
present.

"The attempt to form a republic
in Ireland will not be abandoned
without a struggle," the chief sec-
retary said, "but it can be defeated
by united determination of all par-
ties and all creeds resolutely to op-
pose savage methods and reserve
their natural right to decide as to
the ultimate and best government
for Ireland.

There never was a time," he ad-
ded, "when the Irish executive, the
British cabinet and the house of
commons were more desirous of set-
tling this age-long Irish question
and we are ready to welcome rep-
resentation from every quarter as to
the best method of solution."

ULSTER LEADER HEARD

Sir Edward Carson, the Ulster
Unionist leader, after declaring that
"three quarters of Ireland, the
British government has been entirely
beaten," said:
"There are only two courses open
for solution—either surrender to
the Irish republic or organization of
forces to insure the government is
not beaten again."

The Unionist leader asserted that
what he had done in Ulster in the
past he would do again. "If I
had not done my part," he stated,
"Ulster would today be ground down
under the heels of murdering assas-
sins, who are now making Ireland
infamous in the eyes of the world."

COX IS WORKING FOR SUFFRAGE

His Personal Representatives
Now in Tennessee

G. O. P. USING CHAUTAUQUAS

Chairman White Calls for Demo-
cratic Volunteers

COLUMBUS.—(By United Press.)—
Governor James M. Cox Friday in-
formed a committee of suffrage lead-
ers that he already has sent personal
representatives into Tennessee to
work for ratification of the suffrage
amendment at the special session be-
ginning August 8.

Announcement was made at the
governor's office also that George
White, chairman of the Democratic
national committee, has wired state
chairmen, urging them to have
Democratic speakers at all chautau-
quas during the next few months.

Chairman White said the Republicans
had scheduled 15,000 chautauqua speak-
ers at \$30 a day. White called for
Democratic volunteers, stating that
he does not intend to "compete in
money with Will Hays."

Word that Cox has sent representa-
tives into Tennessee was given Miss
Sue White, Nashville, Miss Anita Pol-
itz, Charleston, S. C., and Mrs.
James Reed, Columbus, a commit-
tee of the National Woman's Party.

Visitors of Cox Friday were Sen-
ators Harrison, Mississippi and King,
Utah, Edward Hurley, formerly of
the shipping board and Oscar Brad-
fitt of Xenia, Ohio, Senator Pomeroy,
Ohio, is expected to meet Cox
for Dayton either Saturday or Mon-
day to discuss campaign expendi-
tures and the senatorial investiga-
tion.

The governor had a letter from a
New Yorker Friday, asking "Are you
the same Cox who used to be boss of
Indiana? If you are I'm going to
vote against you."

"Boss" George B. Cox was a Rep-
ublican and has been dead several
years.

PREPARES SPEECH

COLUMBUS.—(By United Press.)—
Governor James M. Cox Friday will
begin the writing of his formal speech
of acceptance from data which he has
been collecting from numerous
sources ever since his nomination.

His speech, which will be the scene
of his labors, the nominee leaving
Columbus for there shortly after
noon.

PROHIBITION ISSUE

Interest at present centers in the
exact stand of the nominee on prohibi-
tion. Since his nomination, the
governor has made himself clear on
several important issues, but the
telegram of Richmond Pearson Hobson,
of the Anti-Saloon League, ask-
ing whether Cox favors a "wet" mod-
ification of the Volstead law, remains
unanswered after a period of two
weeks. To recent inquiries Cox has
indicated his answer will be in his
speech of "acceptance."

G. O. P. "REACTION"
The league of nations, the causes
of the present unrest thruout the
country, federal taxation, the high
cost of living and farming condi-
tions will be given prominent places
in the speech, but one of the out-
standing themes of the speech will
be an attempt to show the Republican
party "has drifted back into 'reac-
tion,' a close adviser said Friday.

LI known that Cox is studying care-
fully the full text of Senator Hard-
ing's speech Thursday and it is
thought probable that he will find
occasion to reply to some sections of
it.

Data for Cox's speech has been fur-
nished in large volume by the White
House and other government depart-
ments at Washington. In addition,
thousands of appeals and suggestions
have been received from individuals.
Speaking of these Cox said the gen-
eral trend was that he should come out
strong for progressive principles.

Three million lithographed post-
ers of Cox have been ordered for the
campaign and bids on several mil-
lion buttons are being considered.

ALLEGED SLAYER OF GIRL SURROUNDED BY POSSE

GRAND RAPIDS, Mich.—A posse
of 500 farmers, members of the
state police force and county officers,
have surrounded in a swamp near
Charlotte, the alleged murderer of
Beatrice Hickox, 12 years old, whose
body was found in a field Thursday
afternoon.

The Hickox girl was choked to
death, her head being beaten by
jamming it against a large stone.

BANK DEPOSITORS IN U. S. NOW REACH 20,380,000

WASHINGTON.—Three western
states, Wyoming, Montana and Id-
aho, led all others on May 4, in the
number of bank depositors, with
1,000 population, according to fig-
ures compiled by the comptroller of
currency.

The average for all states was
190 per 1,000 of one deposit for
every 5 1-2 persons in the country.
The total number of depositors on
May 4 was 20,380,000. Of this
number 12,315,000 were checking
accounts and 8,065,000 time or sav-
ings accounts.

GASOLINE RATION LATEST PLAN

System Proposed by Refiners to
Keep Price Down

WASHINGTON.—(By United
Press.)—A gasoline rationing sys-
tem, to be applied thruout the en-
tire United States now is being con-
sidered by big refiners. The ration-
ing system is designed by the refin-
ers as a last resort to curtail con-
sumption and to keep the price of gas-
oline from rising more than 10 cents
a gallon, government officials here
have been informed by the representa-
tives of the refiners.

Vice-President T. A. Dines, of the
Midwest Refining Company is one
representative of the big refiners
now here, who has discussed the ra-
tioning system with government offi-
cials. Another is C. H. Sheffield,
of the Standard Oil Company of
New Jersey.

Refiners say curtailing consump-
tion is the only way to keep down
prices. Before adopting the ration-
ing system, they plan to issue a na-
tion-wide appeal to the country to
cut down joy riding.

As devised by the refiners, the ra-
tioning plan would be a voluntary
one by dealers in which the govern-
ment would have no hand. It would
mean that gasoline would be doled
out to dealers in a fixed quota
for each state or locality.

OIL DEVELOPMENT HELD BACK

Freight Conditions Prevent
Greater Activity, Says Custer

Development of oil in Allen-co is
held back, simply because of lack of
freight shipping facilities and the in-
ability to secure the tools with
which to drill, according to Gay
Custer, county recorder.

Every day there are persons in
the office, inquiring of him the way
to proceed to lease the land or bring-
ing in oil leases already taken up.

Only Thursday a man with a large
block of leases in western Allen-co,
visited the recorder's office for pur-
poses of information. He announ-
ced he would be back later with the
leases for record.

Not in many years has been such
a movement to drill for oil, Custer
says, the movement being limited to
no special part of the county, but
including every township.

Nearly all of the leases call for
the sinking of ten to twelve and fire-
water wells, providing the first well
is a producer.

BOLSHEVIKS PERIL ALL EUROPE

German Menace Seen in Victory
For the Soviet

GREAT UPRISING FORECAST

Annexation of Russia by Berlin
is Predicted

WASHINGTON.—(By United
Press.)—Informal representations
have been made to the state depart-
ment to learn if the United States
government can be relied upon to
aid Poland against the Russian Bol-
sheviki, it was learned Friday.

These representations have been of
a vague sort and have carried no
specific request, it was learned.
The state department would not
reveal from whom the representa-
tions had come, but it is understood
that the references as to American
support have been made by Prince
Lubomirski, the Polish minister,
here.

ALL EUROPE MENACED

LONDON.—(By Associated Press.)—
The Polish outlook appears in-
creasingly ominous, it was learned
in Friday morning's papers. Poland
not only is extremely hard pressed
by the Bolshevik armies, they say,
but her territory is already in-
vaded.

Emphasis is laid on the danger to
the peace of all Europe by most of
the newspapers, and the anti-Bol-
shevik papers see in the soviet army's
advance a determination to destroy
Poland. Another fear expressed is
that if the Bolsheviks victoriously
reach the eastern frontier of Ger-
many, a Spartacist or monarchist up-
rising there would be inevitable,
either of which, they say, would be
equally fatal to the reconstruction of
Europe.

GERMAN EXCUSE GIVEN

Papers, which have been constan-
tly distrustful of the Germans,
foresee that the military party of
Germany not only would find in such
a case an excuse for further delay-
ing reduction of the reichswahr and
disbandment of the civil guard, but
would secure a direct line of com-
munication with Russia and make
itself master of the Bolshevik orga-
nization and Russia herself.

"If this plan is carried out," says
the Daily Mail, "Russia would be-
come a German colony and all her
vast wealth and man power would be
at Germany's disposal. The al-
lies would have lost the peace after
winning the war."

POLES ASK ARMISTICE

WARSAW.—(By Associated
Press.)—Poland has sent a propo-
sals direct to the soviet govern-
ment at Moscow.

The direct negotiations begun
with the soviet are on the question
of an immediate armistice along the
front. The proposals were
wired after the failure to reach any
definite conclusion in dealings with
M. Tschetverin, the Bolshevik for-
eign minister, thru Premier
Lloyd-George of Great Britain. The
proposals were signed by Prince
Eugene Sapieha, the minister of for-
eign affairs.

FRENCH MARCH ON DAMASCUS

BEIRUT, Syria.—French troops,
in view of the failure of King Faisal
of Syria, to begin execution of the
ultimatum terms, began a march on
Damascus Thursday. They encoun-
tered no opposition and are proceed-
ing toward Aleppo.

REDS NEAR GERMAN BORDER

BERLIN.—(By United Press.)—
The main body of the Bolshevik
northern army has reached a point
54 miles from the German border
while the advance guard is within
11 miles of German territory, ac-
cording to dispatches here. The
German government has adopted de-
fensive measures along the entire
frontier to prevent a possible inva-
sion by the red armies.

In military circles it was not be-
lieved the Soviets would attempt to
invade Germany.

Reports were current Thursday
that four reichwehr brigades were
moving toward East Prussia, but
this cannot be confirmed.

Newspapers approved Foreign
Minister Simon's statement that en-
tire German troops would not be al-
lowed to cross Germany to reach Po-
land. It was declared that German
railroads were already paralyzed. Possi-
bility of sniping was seen if the allies
attempted to move troops thru Ger-
many without the government's per-
mission.

BRITAIN'S REPLY COURTEOUS

LONDON.—(By United Press.)—
Great Britain's reply to the note of
the Moscow government of July 12,
was "very short and courteous, al-
most cordial," the Daily Herald said
Friday. The newspapers said the re-
ply was addressed to "The soviet
government of Russia." This is the
first time a communication has been
addressed to "The soviet government
of Russia." This is the first time a
communication has been addressed in
that manner by Great Britain.

The reply informed the
Moscow government the Poles had
been advised to go direct to the
soviet for an armistice. It also said
the proposed peace conference need
not necessarily be held in London.
There was said to be a significant
absence of any threats.

DIVORCES DECREASE

CLEVELAND.—Indication that
the divorce evil may be on the de-
cline in Cuyahoga County were
evidenced recently when for two
whole days only five divorce suits
were filed. This is the lowest
number filed in any two days for
months, say officials.

U. S. AIDS PLANS FOR TOURS

Vast Expanse of Natural Parks Open to Public.

INFORMATION IS READY
Government Will See Rates Are Kept Down.

WASHINGTON.—The government this summer will assist more than 1,000,000 persons planning to spend their vacations in the mountains of the great national parks, Arno Cammerer of the interior department announced today.

Millions more will be welcomed if they apply before September 1, according to Cammerer, who is a sort of host ex-officio for a great national vacation party which the government is engineering.

The government is operating a chain of hotels in each of the nineteen big national parks to house vacationists. Charges were described as "very nominal" by Cammerer. Two weeks in the vast Rock Mountain park in Colorado cost only \$75, he pointed out, under the government plan.

Vacationists who take advantage of the government's invitation will be furnished guides and autos for tours at very small costs, according to Cammerer.

Arrangements have been made by railroads to supply reduced rates. "Everything possible has been done to bring the big parks within the reach of every person in the United States," said Cammerer.

INFORMATION IS READY
Information as to vacations in the parks can be obtained from the National Park bureau, interior department building, Washington, and from many railroad offices.

An army of vacationists numbering hundreds of thousands already has advanced on the parks. Trains to Denver and a score of Western cities are crowded daily. Under the government plan hotel accommodations are made.

None of the usual attractions are missing. You can look fine, big trout, swim in the crystal waters of the mountain lakes and streams, feed peanuts to the bears and admire the deer, but on the frequency of bears, inspect ruins of prehistoric civilization, motor over smooth winding roads, eat lunch by the roadside, sleep under canvas, fight mosquitoes, or indulge in almost any pastime imaginable. Hunting is the only activity forbidden and there is no possibility of being shot. According to Cammerer, who pointed out that the national parks include a total of 10,660 square miles. The million vacationists now planning to visit the parks might lose themselves in this vast expanse and there still would be room for more millions, officials said.

LIST OF PARKS
A list of some of the parks and their attractions follows: Yellowstone, Wyoming. "Exceptional trout fishing; more game than all the rest of the world put together."

Rocky Mountain, Colorado. "Snowy mountain ranges."

Crater Lake Oregon. "Lake of extraordinary blue in center of extinct volcano, sides 1,000 feet high; fine fishing."

Glacier, Montana. "Rugged mountain region of unsurpassed Alpine character, 250 lakes and 60 small glaciers, fine trout fishing."

Grand Canyon, Arizona. "Most sublime spectacle in the world."

Sequoia, Middle California. "Caves, cool and mysterious; great trees 25 feet in diameter; towering mountain ranges."

SECOND HOTTEST DAY OF THE YEAR, FRIDAY
Temperature registered at the Solar Refinery Friday indicated the second hottest on record for the year.

The thermometer registered 92 degrees at noon and was giving evidence of going higher, when rain came. There was but one day previous, this year, that surpassed that record. It was early in June when a short hot spell drove the mercury up to 95.

DIVORCE DENIED
Judge William Klinger refused to grant either Mrs. Minnie Krieg or her husband Frank, a divorce at the conclusion of the trial, Friday afternoon. Krieg's cross petition was dismissed. Mrs. Krieg must pay court costs. The injunction allowed to prevent Krieg from disposing of any of the effects in their home was dissolved by the court.

HEARTLESS LANDLORD BEATEN BY SOLDIER'S GASOLINE CARAVAN

LEYBLAND, O.—There's nothing humdrum about the life of Jack Rowland, his wife and their three-year old daughter. Nearly every day is moving day for them, and it isn't a heartless landlord either. Rowland and his gasoline caravan passed through Cleveland on the way to Detroit with the expectation of having some much needed repairs made on his five-year-old car.

That quest is aside from his principal pursuit—which is health. Rowland is a former Canadian soldier. One day, while in battle, things grew dim, his senses left him, and when he came to be found his skull had been fractured and his right arm torn off. When he got out of the hospital and was invalided back home, he weighed 32 pounds. "I knew I couldn't find health in the city, so I just fixed up my old car and took my family on a trip that day far as carrying away the 35,000 miles of roads in the United States and Canada," he said. "My health is improving wonderfully and after all, that's what we all need most."

RAIL RATE RAISE OPPOSED

Union Employees Insist Increase Not Needed by Roads

WASHINGTON.—(By United Press.)—Opposition to increased passenger, freight, baggage and Pullman rates, asked by railroads was developing Friday.

The railroads in a petition filed with interstate commerce commission Thursday, said they needed the higher rates to meet the \$800,000,000 wage award granted workers.

Opponents of the proposed raises said, however, that they are unnecessary and that increased freight rates asked several weeks ago are sufficient for railroad needs.

Organized railroad employees may join the effort to prevent the increase, it was learned Friday. It is known that the employees have collected information which they say would justify charges that the roads are now running up a big bill of expense to show the necessity of increased revenue.

Once the railroads get the increase, however, the union leaders anticipate that thousands of men will be laid off and other economy measures taken, according to John Scott, secretary of the railway department of the American Federation of Labor.

The railroad executives deny these assertions and say the raises sought are absolutely necessary. The proposed 50 percent increase on passenger and Pullman fares is expected to be attacked by the United Commercial Travelers.

Farmer organizations will inquire into the necessity of a raise of approximately 40 percent for carrying milk. This would increase the price of milk with corresponding advantage to milk producers. At the National Grange here, it was said the raising would not be opposed if that organization found it necessary to the roads.

DOZEN FINGERS AND TOES, WANTS THEM CUT OFF
NEW YORK.—When Paul Anderson, an eight-year-old boy of Riverdale-on-Hudson, was admitted to Bellevue Hospital recently the authorities discovered that they had in their midst a physical freak.

The lad had twelve toes and twelve fingers. The small toes and small fingers have been duplicated by Mother Nature. He was admitted to the hospital to permit of the amputation of the superfluous members.

KIDDIES MAKING MUD PIES FOUND \$100,000 WORTH OF STOLEN BONDS
QUATANA, Minn.—"Mud pie" molded by the chubby fingers of two little girls on the river bank here, led to the recovery of \$100,000, part of the loot from the Great Northern State Bank of St. Paul, robbed recently.

The tots were playing "store" as Postmaster W. A. Bailey passed them. He saw the "purchase" give the "shop-keeper" a piece of water soaked paper for a "pie." He stopped suddenly, rubbed his eyes and took another look. The "piece of paper" was a \$100,000 bond.

Bailey counted the remainder of the bundle of "paper" and found that it totalled \$100,000. The bonds were inside a pillow case which the children had found floating in the water and towed to shore.

PRISONERS, BUT UNCLAIMED

Strange Predicament of Federal Convicts in South

COLUMBIA, S. C.—The Richmond jail has three prisoners it can't keep and can't let go. The federal prison at Atlanta has forty more said to be in the same straits.

A former New York judge, now imprisoned at Atlanta, caused the trouble.

The three men were sentenced at Columbia on moonshining charges. The penalties were one year in the federal prison. There was no mention of "a year and a day" nor of "hard labor."

The former New York judge knew about sentences and suggested a course of procedure that brought a ruling by Judge Samuel H. Sibley at Atlanta that the men were improperly committed. Judge Sibley issued habeas corpus writs and ordered the men returned to Columbia for review of sentences. That was only the start. The end still is not in sight.

Arriving here, the federal marshal could find no one to take his prisoners. "Those men are officially off my hands," the United States marshal at Charleston said over the telephone. He stood pat. The federal commissioners and the federal district attorney here scratched their heads.

The Georgia officer decided to "get from under." He flourished Judge Sibley's removal order under the nose of the Richmond-on-Jail, left his prisoners and hurried away. The prisoners are here. They can't go. They can't stay. There are said to be forty more in the Atlanta prison who may be able to get in the same uncertain position if they act.

BURIED TREASURE IS 10 CASKS OF RUM HIDDEN 150 YEARS

THE PA. Man—Rumors that ten casks of rum, 150 years old, are buried near Cumberland House, an old Hudson Bay Company fur post famous in early history, have caused more excitement than the gold strike at Ashcroft Lake. Many prospectors have deferred their hunt for yellow metal to search for this liquid treasure.

French wood runners and trappers in the employ of the North West Company, the great rival of the Hudson Bay Company, visited Cumberland House on their way toward the Athabasca region in the latter part of the eighteenth century. They had with them the casks of rum to be used in trading with Indians for furs.

Farmer organizations will inquire into the necessity of a raise of approximately 40 percent for carrying milk. This would increase the price of milk with corresponding advantage to milk producers. At the National Grange here, it was said the raising would not be opposed if that organization found it necessary to the roads.

MANY EX-SERVICE MEN MAKE APPLICATION FOR VICTORY MEDALS

"Seventy-three applications were made at the Lima recruiting station for victory medals from noon Thursday until 9 o'clock Thursday evening," Army Field Clerk A. F. Schroeder said Friday.

Schroeder said Friday he will remain in Lima until Saturday night and urged that every man who has been in service make his application before that time. This will make it unnecessary to send discharges to Washington. The medals should be received within three weeks from the time application is made, according to Schroeder.

"Those who have seen the medal, one of which is on display at the recruiting station, declare it to be the most beautiful ever issued by the U. S. war department. The ribbon has the colors of a double rainbow, and the medal itself is of bronze, bearing the names of the allied powers in the great war on one side and an appropriate design on the opposite."

CONGRESSIONAL RECORD COSTLY PUBLICATION
WASHINGTON.—The cost of publishing the Congressional Record, the government publication recording daily everything that is said and done in Congress, as well as some things outside, was \$537,640 last year, practically the same as for 1918, but about \$300,000 less than the 1917 cost.

These figures were given recently by Russell O. Beene, accountant at the government printing office, in answer to an inquiry of representative Magee of New York, as to the possible saving that would result from the discontinuance of the record. Mr. Beene gave the cost for 1917 as \$801,790.85 and for 1918 as \$537,640.

Cornelius Ford, the public printer, was asked for an explanation of the high figure in 1917, but confessed his ignorance of it. It happened that Congress "did more talking" that year. Mr. Ford said that in 1917, Congress was in session 250 days; in 1918, 307 days, and in 1919, 279 days.

HILLS FOURTEEN RATTLES. POKOPOAG, Mass.—A family of thirteen small rattles and their mother was slain by a visitor to the Blue Hills reservation near here. The mother snake fought for her young to the last. After she was killed it was a easy matter to dispose of the little ones. This is considered an unusually large rattlesnake family.

STRIKE PUT UP TO PRESIDENT
Wilson's Aid to Check Coal Walk-out is Asked

WASHINGTON.—(By Associated Press.)—Efforts were renewed Friday by Illinois coal operators to get the government to take a hand in the strike of laborers at their mines. After a delegation of operators had left a memorandum at the White House Thursday, urging President Wilson to offer "guidance as to the method" for dealing with the demands of the men for wage increases of \$2 a day, announcement was made that the committee would return Friday for a conference with Secretary Taft.

The operators expressed the fear that the strike, which they said already has caused half the mines in Illinois to shut down, might spread to Indiana, Ohio and the bituminous fields of West Pennsylvania.

BELEVILLE, Ill.—Coal mines throughout southern Illinois Friday were faced with the possibility of being forced to shut down on account of the unauthorized strike of their day laborers which started Wednesday and is reported to be steadily spreading. Approximately 20,000 men are idle, according to the strikers. The strikers are demanding an average wage increase of from \$5.50 to \$7.50 a day and predict further accessions to their demands.

MINES ARE CLOSED
DANVILLE, Ill.—Two loading mines have already closed and all other local mines shut down at midnight Thursday night when the miners obeyed an order to strike following refusal of operators to increase wages. About 4,000 miners are involved here.

"T'WAS 'GLAWE"
SALINA, Kan.—Bonnie Smith, of this city, lost his left eye recently and, strange to say, expressed himself as "glad of it." Easy 'twas a glass eye. Had it been the right one Smith would have been totally blind.

The artificial optic was shattered by a stray 22 calibre rifle bullet as Smith sat on the front porch of his home.

CLAIMS "MESMERISM" GOT HER "IN DUTCH"
CHICAGO.—An eighteen-year-old girl, Glendora Jones, who just graduated from high school, appeared in court here recently seeking annulment of her marriage to one Arthur Jones. She said Jones hypnotized her into marrying him after she had married the man she loved and threatened if she refused to "turn her into a dog and make her bark."

CENSUS REPORT
WASHINGTON.—Census bureau Friday announced the following 1920 figures:

Greenville, Ohio, 7,104; Urbana, Ohio, 7,621.

Decrease since 1910 Greenville, Ohio, 867 or 13.9. Decrease since 1910 Urbana, Ohio, 118, or 1.5.

CLEVELAND TO TO DOGS
CLEVELAND, O.—Unless steps are taken to keep down the canine population, Cleveland will go to the dogs in another few months according to County Dog License Commissioner Lear from a licensed dog population of 1,900 last year. Lear reported a jump to 11,112 licensed animals last year.

He cannot account for the great increase. Evasion of the dog license law, he said, may have kept some hundreds of dogs under cover, but this fact alone cannot account for the leap from 1,900 to 11,000. Dog catchers report a larger number of captured than usual.

CEMENT LACK MAY STOP WORK

Prospect of Early Shut-Down on Collett-St Sewer

Work on the big Collett-st sewer is being seriously handicapped on account of inability of the contractors to obtain cement, it was learned Friday.

City Engineer Vaughn C. Miller said the supply of cement on hand has been practically exhausted for several days, only enough being available for making mortar used in laying blocks. He said contractors would be able to keep crews at work on the sewer for approximately two weeks more without additional cement, but after that time men would have to be laid off and work temporarily held up until the shipping situation improves.

Contractors have been unable to secure assurances from the manufacturers that they will be able to get shipments thru in time to prevent a shut-down in the work here.

AUSTRIANS MAKE APPEALS TO AMERICAN MILLIONAIRES
WASHINGTON, D. C.—That Austrians have high regard for the liberality of millionaires in America and of the generosity of the American government is indicated by dozens of letters which are received here from Austria asking for financial aid. Among those who appealed for aid during the past week were a labor union, a municipality and several individuals.

The calls for help are referred to Daniel F. Gargus, secretary of the District Board of Commissioners. Recently he received an appeal from Anne Marie Pribyl, of Leoben, Austria. She sought the address of John D. Rockefeller and petitions the "Lord Mayor of Washington" to answer immediately.

QUITS \$13,000 POSITION, WEDS \$2,000 A YEAR MAN
WELLESLEY, Mass.—Miss Bessie B. Parker, private secretary to Roger W. Babson, noted statistician, says she can't keep on working and make a home what it should be for her future husband; so she is sacrificing an annual income of \$13,000 to devote herself to housework.

Miss Parker is to become the bride of Elroy L. Powers, of Norwood, a \$2,000-a-year employee of the Pinkham Press. She believes, she says, that the woman's place is the home. With the income she is giving up for a mansion could be secured. But Miss Parker thinks that the wife's personal touch and supervision of the household are far more vital than money.

KILLED BY AUTO
NEWARK.—Wilbert Watkins, 7, son of George Watkins, died from injuries suffered at Brownsville when he was struck by an automobile driven by a man who gave his name as Groves and who said he lived on Fourth street, near the fair grounds in Columbus.

FINANCIER COPS
DRECESTER, Mass.—Speakers of financiers, how about these cops? James J. McDonough and Benjamin McCorty, Worcester policemen, have just acquired title to real estate involving in the neighborhood of \$70,000.

CHOKES TO DEATH ON TOY BALLOON
DETROIT, Mich.—Celebrating the birthday of a companion, fourteen children suddenly turned to grieving when one of their number, Jack C. Prange, six years old choked to death on the mouthpiece of a toy balloon.

To balloons were given as favors at the party. Physicians were called as the boy gasped for breath, but Jack died before they arrived.

SLAY WEAVERS TO STRIKE
PATERSON, N. J.—A strike of approximately 2,500 broad silk weavers in Paterson mills have been called to take effect at the close of the work-day next Monday, representatives of the United Textile Workers and Amalgamated Textile Workers announced here. The walk-out, it was stated, is ordered as a protest against wage cuts by employers, which range from \$3 to \$13 a week.

CENTURY OLD BELLED BUZZARD BELIEVED TO BE DEAD AT LAST

WAYCROSS, Ga.—The famous "belled buzzard" of South Georgia, known to be more than 100 years old, is believed to be dead. The buzzard has a small sleighbell tied around its neck, said to have been placed there during the War of 1812.

It has been seen in South Georgia counties at intervals for many years and was easily distinguished from its companions by its size and the bell around its neck. It was seen several weeks ago on the farm of W. H. Isach, Second Creek, West Virginia.

The famous buzzard has always been a follower of war carnage and is said to have been present at every battle of any size north of the equator. It has been seen as far south as Texas, where the buzzards were usually spent in the southern States. During the Mexican trouble several years ago it spent two whole years at the border and witnessed every skirmish with the greasers.

There were no marks of violence on the body, express company employees said. The police immediately took possession of the trunk and its contents for investigation.

CLUES TO MYSTERY
DETROIT.—(By United Press.)—Mrs. Little Brooks, wife of the janitor of the apartment building at 105 Harper-ave, Friday gave the first clues in the trunk mystery murder unearthed at New York.

She said for several weeks prior to June 17, the date of the shipment of the trunk, a man who gave the name of "E. Leroy" lived at the building with a woman who claimed to be his wife. The woman disappeared a few days before June 17 and "Leroy" also disappeared a few days later, after borrowing enough money from other tenants of the building and shipping two trunks.

NEGRO CHAUFFEUR HELD FOR ATTACKING TWO GIRLS
CINCINNATI.—John Smith, 48, negro chauffeur, formerly of Atlanta, Ga., is held in jail here to answer charges of having attacked two girls, 11 years of age, in the home of one of the children whose father employed him.

Smith confessed the criminal assault and told police he had been convicted of murder in Atlanta and had served eight years before being pardoned. He also said he had been sentenced to jail more than 50 times.

BODY HID IN TRUNK

Nude Woman's Remains Found By New York Expressman

NEW YORK.—(By Associated Press.)—The body of a nude woman, jammed in a trunk, was found Friday by employees of the American Railway Express Company, among the unclaimed baggage in the company's East Forty-fourth street warehouse. The trunk had been received from Detroit June 17.

Believing that the trunk contained perishable merchandise, one of the expressmen opened it and found the woman's body. The body had been jammed into the trunk and the clothes apparently had been thrown in afterward.

There were no marks of violence on the body, express company employees said. The police immediately took possession of the trunk and its contents for investigation.

COUNTERFEITERS ROUNDED UP

Federal Officials Gather in Many
Spurious Note Makers

WASHINGTON, D. C.—Many arrests of counterfeiters have been made by the secret service bureau recently, according to Chief W. H. Moran.

Groups making spurious currency were taken into custody at Detroit, New York, Bridgeport, Conn., Lowell, Mass., and Scranton, Pa., it was stated. They were making bills of \$5, \$10 and \$20 denominations, and those working at Lowell and Scranton were also making \$50 federal notes. A man arrested in Pittsburgh is suspected of having made and circulated a considerable number of \$100 notes.

A peculiar case developed in Chicago, where a man bathing at a Lake Michigan beach felt something sharp strike his toe. Upon examination it proved to be a plate for counterfeiting \$20 bills. With this plate as a clue secret service operatives subsequently discovered and arrested three men who for months had been experimenting with counterfeiters and who had just completed an excellent

plate for making \$20 notes. They were arrested before any of the spurious currency was put in circulation and surrendered 12 counterfeit plates.

Dugan said at this meeting some plan for carrying out the provisions of the state fair-price commission's idea will be worked out.

FATHER SUES WIDOW OF SON TO RECOVER LOT

COLUMBUS — Herman C. Newman, Lorain, has filed appeal to the Ohio supreme court in his suit against his son's widow, Mrs. Theodore Newman and H. H. McKeehan, trustee, to recover \$5,000 loaned the son, Edward V. Newman, former secretary of the Cleveland Trust Company.

The loan was made so the son could purchase property near Cleveland, on which the father alleged, he was given a mortgage. The son died suddenly without signing the mortgage and his widow refused to recognize his claims, deeding the property in trust to McKeehan.

PESKY BED BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They mature to adult size and are capable of laying in four weeks. How many bedbugs would you have in a year if you left one female or egg unmolested for one year? To rid the pesky bedbug, you can readily see how necessary it is to use a preparation that will kill the eggs as well as the live ones. P. D. Q. has been demonstrated by the leading Hospitals, Hotels and Railroad Companies that the safest and most economical way to stop future generations of bedbugs, roaches, fleas and ants is to use the new discovery

Pesky Bedbug Outlets "P. D. Q." A 16c package of P. D. Q. makes a quart, enough to kill a million bedbugs, roaches, fleas and ants and at the same time destroy their eggs. Impossible for them to start again. P. D. Q. is positively safe. Free, put one quart in every package to get the pesky bedbug. The hand-to-get-all-bedbugs and ants. Special Hospital and Hotel use \$2.50. Destroy five packages of P. D. Q. — you destroy bedbugs. POLISH CAPITAL IN DANGER

Soviet Advance Now Only 120
Miles From Warsaw

WARSAW—(By Associated Press)—The menace to the Polish capital is becoming serious thru the defeat of the left wing of the Polish army. The battle front runs 600 miles on a fairly straight line north and south, and is about 120 miles east of Warsaw.

Since the attacks of the Bolsheviks against Vilna on July 14, the Polish left or northern wing has been forced to hasten its retreat and the Bolsheviks have been following it with daily advance, averaging 15 miles. In three weeks the Poles have retired from the Beresina river to the Niemen and the Vistula, which flows more than 180 miles, and the distance between the Niemen and the Vistula, which flows thru Warsaw is less than that, being about 150 miles.

ALLIES AID POLAND
PARIS—The allies have decided to take measures preparatory to giving military aid to Poland if that should prove necessary. It was learned here Thursday.

GREEK KING IN BATTLE
ATHENS—(By Associated Press)—King Alexander of Greece was aboard the cruiser Averoff during bombardment of Rodosto, on the Eu-

ropean shore of the Sea of Marmora. Greek troops were landed by the fleet, driving out the Turks. Two British dreadnoughts assisted in the bombardment, which is the beginning of operations which have as their purpose the routing of the forces of Isfer Tayer Bey, Turkish commander at Adrianople, whose front extends from Adrianople thru Kirk Killise to Lule Burgas.

Why Cox and Harding Will Make League Chief Issue

Both candidates on the Democratic ticket declare that they will make their chief fight on the League of Nations issue. Replying, Senator Harding says that since "the President demands a campaign on this issue," since "the Democratic platform makes the issue paramount," and since "the Democratic candidates unqualifiedly acquiesce," then "the Republican party and candidates gladly accept the challenge." Altho the candidates have thus joined issue over the League of Nations there are independent publicists who agree that many citizens will vote their party ticket quite irrespective of what Governor Cox and Senator Harding may say about the League, and instead of the coming election being a great national referendum on the League of Nations, it will be, in the opinion of The Lowell Courier-Citizen, "simply on which party is to be trusted—the Democrats after their prolonged exhibition of their quality or the Republicans after their prolonged absence, which may have made the heart grow fonder."

The leading article in THE LITERARY DIGEST this week, July 24th, throws many side-lights upon the reasons why the candidates are pushing the League of Nations to the front as a dominant issue, and it will be highly interesting and instructive reading to the American voter just now.

STILL FOUND IN CHURCH ATTIC

Janitor is Taken to Jail for Moonshining.

CHARLESTON, W. Va. — Moonshining is on the increase in West Virginia, according to figures and reports now on file in the office of the Prohibition Department. More stills were raided in the last month than any other time in the history of the department.

All classes appear to be engaged in the manufacture of contraband booze, according to the reports. In one raid a still was found in the attic of a church, and the janitor was arrested for moonshining. Another still was found turning out liquor within fifty feet of the State Capitol. In Summers county stills were confiscated in the homes of two men who had been school teachers for sixteen years.

A raid in Lincoln county revealed a whiskey-making outfit on the premises of a wealthy farmer.

A unique arrest occurred here.

Officers were returning from a raid a few miles away, when the automobile in which they were riding collided with another. The officers were looking over the wreck, when one of them discovered several gallons of moonshine in the other machine.

POLICE CHIEF SUSPENDED
LOHAIN, Ohio — Mayor W. F. Grall Thursday suspended Chief of Police A. A. King and appointed Police Lieutenant Theodore Walker as temporary head of the department. Grall's charges against King contained 16 counts, including one of misappropriating money taken in a gambling raid. King has retained attorneys and will fight for his job.

Phenomenal Gain Shown in 3 Weeks by Prominent Man

Suffered long time from weak kidneys, rheumatism, lazy liver, poor appetite, broken sleep and stomach disorders.

Declares new remedy Drecto went to the bottom of his troubles.

There is no reason why any man or woman should be thin and puny when Nature has bountifully provided the means for robust, healthy and joyful strength. Thousands of people are on the road to nervous prostration and don't know it. They start out each day with an effort—eyes tired, minds clouded, tongue coated. At the end of the day they have reached the limit of their strength. They realize that something is wrong, but they go on hoping that somehow they can shake off this listless feeling. And then a change in the weather, a damp raw spell, a sudden chill wind suddenly shatters their weakened bodies and they are forced to their beds. This is all wrong.

It takes would only remember that disease is contracted only when the body is lacking in vitality to combat it, there would be less deaths and less suffering.

"I have been greatly benefited by taking Drecto; really I'm surprised myself at the difference in my feelings now and what they were three weeks ago," said Mr. Kenneth Clippinger who is employed by the White Mountain Creamery Co., and resides at 738 S. Elizabeth St., Lima, O.

"I no longer have gastritis nor nausea after meals, but my food digests fully. My kidneys act well so that I no longer suffer from backache nor rheumatism. My liver has been cleared off, thereby overcoming those dizzy spells, spots before my eyes and headaches and my nerves are quieted so that I sleep sound and well. My eyesight has cleared and my whole system has been rebuilt, thanks to this wonderful Drecto."

Drecto is not an experiment. It is a safe, harmless combination of natural extracts and contains no dangerous minerals, acids, oils or salts. It is Nature's medicine and can be taken with safety into the most delicate system—Drecto is inexpensive and is now dispensed by modern drug stores almost everywhere.

All good druggists now sell Drecto and it is highly recommended in Lima by Baldwin's Central Drug Store, Corner Main and High Streets.

OUTING FOR KIDDIES OF CHILDREN'S HOME

More than 100 kiddies at Allen Co. Children's Home, from the oldest to the youngest, will be the guests of the Lima Auto Club at their annual outing August 13. Plans were perfected at a meeting Wednesday night of the club, and the date set for the affair. Members will donate their machines and the outing will take the form of a trip to Wapakoneta, where the children will attend one of the theaters.

Later they will be served with candy, ice cream, peanuts and all

sorts of good things. The outing has been held annually for several years, and is always one of the "big" events for the children.

FIRE LOSS \$1,000,000
MANISTEE, Mich. — Fire of unknown origin destroyed the lumber and mill plant of the Buckley and Douglas Lumber Company here early today, causing a loss estimated at \$1,000,000. The plant was said to have been the largest of its kind in the world, operating a new quadruple evaporating system. A number of residences also were destroyed.

GIRL, FEARING WHIPPING, DASHES HERSELF TO DEATH

NEW YORK—Preferring death to punishment by her father, 11-year-old Angelina Scire threw herself from the window of her home in the yard four stories below. She died in a hospital here Thursday without regaining consciousness. Angelina believed her father was coming to punish her for quarreling with a neighbor girl, the police say, when she took the fatal leap. She left her parents this note: "I was no use. To get killed I

threw myself out the window because I need."

SAYS HATRED CAUSED INFLUENZA EPIDEMIC
COLUMBUS, O.—The epidemic of influenza during the recent World War was the result of the feeling of

hatred prevalent at that time. This is the claim made by Anna Maud Hallam, lecturing here. She advocated the use of applied practical psychology as a cure for illness. "Disease is caused by restrictions

on the subconscious mind, resulting from destructive emotions," she declared. "Closer attention should be paid to the emotions which build up the mind and react similarly on the body.

This is the key to happiness in life." In other times in England a royal dish was prepared from this slice of young deerhorns, these having been previously tried.

OPEN LETTERS

To the Voters of Lima

DEAR FRIENDS: I have repeatedly called to your attention the danger of me being sued for damages by property owners along the Ottawa river where the banks are caving because of lack of a retaining wall. It is not a probability any longer; it is a reality. One suit has just been entered against me and I have no defense because I promised to build a wall there when the river work was started.

You can help me by voting for the \$200,000 bond issue at the August primary. The money will be used for building this wall. I am depending on you.

To the Rotary and Kiwanis Baseball Nines

BOYS: You are scheduled to play another game soon, I understand. The man who said it was not a question of who was playing the best, but who was playing the worst in the last game was right. Nevertheless, I'm for you all for I believe it is good for you business men to get away from your worries occasionally and get back to your boyhood tricks. No matter who wins the series, you will all be winners.

To Movie Managers

GENTLEMEN: Occasionally I notice that movie managers allow the sale of tickets after their houses are full and it may be several minutes before late attendants can get in sight of the screen. I believe this is wrong. Why not get out the old S. R. O. sign and dust it off and place it in the ticket booth as soon as the house is filled? It will pay dividends in good will.

LIMA BEANE.

To Babe Ruth Home Run Boosters

DEAR FANS: I pause at this stage to convey the thought that it might be an excellent service to humanity if Babe would hurry along and finally break all previous home run records. I'm speaking in your behalf. You're beginning to lose sleep and are run down from worry. I'll write to Babe about it at once.

To the Hucksters on the Streets

BOYS, with your voices you could all qualify for fog-horn duty anywhere. But I would like to know if it is necessary for you to let out those terrible roars to sell goods. Why not try cutting down the lung work 50 per cent and see if the people will not buy more goods because they are in a better humor?

To Those Who Exhibit Civic Pride

DEAR DESIRABLE CITIZENS: I commend your industry, your desire for beautiful surroundings, the assiduous manner in which you keep down the weeds, mow the lawn, plant flowers and shrubs. Here's hoping that your enterprise and activity will imbue others with the same idea.

To Reckless Auto Drivers

DEAR FRIENDS: In the interest of the safety of yourselves, as well as others, the suggestion is respectfully offered that you exhibit a little more good judgment in your driving on all streets, particularly on W. Market-st, where so many of you race to pass the other fellow and the other fellow races to prevent you from doing it. This is particularly dangerous since Elm and Spring-sts. are closed on account of the Collet-st. sewer work. And don't stop so that your car blocks the street.

To Clevelanders Coming to Investigate Lima's Telephone System

DEAR BOYS: I am glad to see that representatives from one of the great cities of the United States are not too proud to seek information from such a humble being as myself. I don't like to boast or appear presumptuous, but I just want to say that when you see my telephone system you will see the best there is.

To Senator Warren G. Harding

DEAR WARREN: Again I take my pen in hand to address a few words to you. I presume that since you were officially notified of your nomination yesterday, the campaign is on. However, I take it from many of your utterances since the senatorial conference at Chicago, there was little doubt in your mind as to who was the nominee of your party, altho the notification was not made until this late date.

To the Fair Price Commission for Allen-co

GENTLEMEN: During the last few weeks I have seen a number of one-piece bathing suits offered for sale. I have not investigated the price asked, but I would like to suggest that from the amount of material included in them if they cost more than a dime someone is getting cheated.

YOUR NAME

BY PHILIP FRANCIS NOWLAN
VARIATIONS—Fiske, Fish, Fisher, Fisherman, Fishman, Fisker, Pessner.

NACIAL ORIGIN—Anglo-Saxon.

SOURCE—An occupation. The family name of Fiske, of Fische, is another one of the surnames which illustrate vividly the changes which take place in a language in the matter of twenty or twenty-five generations, for it has been no longer than that since our modern word "fish" was pronounced. Virtually all of these "fish" names have arisen from the occupations of those to whom they were first applied. It is possible, of course, but hardly likely, that there were a few rare instances in which the first use was as a nickname, denoting a fancied likeness to a fish.

All variations, however, may be taken for granted as having been derived from either of two occupations, the selling of fish or the catching of them. These occupations were tremendously important in the middle ages, for the English nation subsisted largely on fish both as an economic and religious necessity. Medieval England was Catholic and in the middle ages the fasts of the church were far more rigorous and numerous than today. Indeed, the Fish-mongers' Guild of old London was the most powerful of the merchants' associations for many generations.

The Anglo-Saxon name appears on the old records variously as "le Fysche," "le Fische," "le Fyske," "le Fyscer," and sometimes softened into "le Fissere" (the Anglo-Saxon "ch" had the "k" sound) the Norman form of "Fischer" and "Feschier," and "Pessoner" have only a few survivals in the last mentioned surname, though originally the Anglo-Saxon and Norman forms were often used interchangeably by the same family as in the case of "Esau Fisher" or "Pessoner" who was mayor of Gloucester in 1241.

HEALTH HINTS

By William Brady, M. D.

If we did not live in poorly lighted, poorly ventilated caves most of the time; if we did not indulge in gluttony, as a social custom; if we did not pass long hours in close contact with all sorts of people, harboring all sorts of disease germs; if we did not contrive in every possible way to live without exercise; in short, if we lived a reasonably hygienic life no doubt it would be seldom necessary to enucleate tonsils and adenoids. But we maintain schoolrooms which are vilely ventilated by guaranteed mechanical systems of ventilation in the winter time; we fear drafts with a childish dread; we fear fresh air acquired some evil potency from motion; we associate with almost human animals who sneeze and cough open face, regardless of the sensibilities and safety of those about them; and we stuff and sit around and grow soft and flabby. It is no wonder that disease germs find us such easy meat.

It is the over-eating the defective ventilation, the careless exclusion of drafts, the closed windows and the over-crowding and intimacy of contact in the school room that accounts for the great prevalence of respiratory infections in childhood.

I have mentioned in these talks the direct infection of the tonsils by germs from cavities in the back teeth. A child, whose primary, baby or milk teeth are kept perfectly sound, by frequent regular treatment and inspection by the family dentist, seldom, if ever, suffers with diseased tonsils or adenoids. No price is too great to pay for sound primary teeth. If the temporary teeth are kept sound the mouth and face and head and chest are more likely to develop normally; the child escapes many an ill and sometimes serious ail, which would be likely to attack him if the teeth were decayed, but most important of all, there is a much smaller chance for involvement of the heart valves and permanent handicap thereafter.

In childhood is the time to prevent heart disease. In childhood the great majority of cases of valvular diseases (leakage resulting from inflammation of the heart lining, called endocarditis) have their beginning although as a rule the trouble produces no pain and no alarming symptoms which would point toward a heart lesion.

In acute sore throat, acute tonsillitis especially, there is always a certain tendency toward involvement of the heart lining—germs conveyed in the bloodstream from the tonsils lodge directly on the heart lining and set up their insidious inflammatory process there, which in time produces distortion sufficient to prevent perfect valve closure, and that means valve leakage. For this reason, every child should be kept in bed or at rest for several days when ill with sore throat or anything like sore throat.

JUST A GIRL

BY JANE PHELPS

A MESSAGE FROM KENNETH

A day or two after Edith's party, Claudia Sheppard came over. We talked about the party, about Mr. Sanders, and also about the boys. Of course, Jack and Gregory came in for their share of praise or criticism. She suddenly said to me: "I had a letter from Kenneth the other day. He asked a lot of questions about you. 'I guess you nailed him to the mast also'—He had been joking me about Mr. Sanders."

"Nonsense! But what did he say?" "Oh, he wanted to know if you were well, and to be remembered, and he spoke of how much he had enjoyed meeting you and the rest of the girls. It was a nice long letter. I wish I had thought to bring it over to you to read."

"I wish you had," I tried to speak calmly, as Mother did when she didn't want people to know she was particularly interested. "When he writes again let me see his letter. And when you answer this one, remember me to him." I was angry with myself for blushing, but I couldn't help it.

"I shan't forget. Isn't it a shame Kenneth is poor? He's such a dear."

"Dad says being poor doesn't count. That it is what a man is, not what he HAS, that counts in this world."

"Your father is dreaming. How can a girl get along with a poor man? I mean a girl brought up as we girls are. Why, Kenneth couldn't buy my stockings and slippers without going into bankruptcy."

"I don't know he was as poor as that," I almost gasped. Mother perhaps had been right. It would be dreadful for a girl to get interested in a fellow who couldn't buy her shoes and stockings. Even on a ranch I didn't believe women went barefoot.

"Well, I didn't exactly mean he couldn't buy some kind of foot wear, but not the kind we wear."

"Oh I thought you mean his wife would have to go barefoot!" Not quite that, we both laughed at the idea. "But really, isn't it a shame that he should be so poor when he is handsome and so bright—Mother says he is intelligent—and some of the other boys who haven't an ounce of sense are millionaires."

"I know. But they can't help being millionaires any more than Kenneth can help being poor. They didn't earn the money it was left them."

"You say such funny things. Who wants them to help being millionaires? I think it is perfectly jolly to know boys like Jack and Gregory who spend money so generously. Jack's got good taste, too. I guess you know that. I'll bet a pair of gloves he sent you those orchids."

She pointed to a great bunch of the delicate flowers on my dressing table.

"You lose Gregory Stuart sent them."

"Same thing! He's a millionaire kid, too."

"You lost the gloves. Come on, we'll go buy them. I'm afraid you'll forget you've lost them!" Claudia knew I was teasing her, but she also was keen for a walk, we told Mother we were going out.

I never went out without telling Mother—she was at home.

We had lots of fun buying the gloves. Claudia said I selected the most expensive kind, and purposely she would run short on her allow-

ance before the month was up.

"What's the difference? You are sure to borrow of me if you do," I told her. It was a great joke with us four girls—Edith, Rose, Claudia and me—that if our allowance ran thru our fingers—as it often did—it was a matter of time before we were "out."

Are Women Naturally Despondent?

A prominent writer so claims. Women are constituted with a delicate organism and in nine cases out of ten mental depression may be attributed to an abnormal condition of the system, which expresses itself in nervousness, sleeplessness, back-aches, headaches, causing constant misery and as a result despondency. Lydia E. Pinkham's Vegetable Compound, a simple remedy made from roots and herbs, is the one great remedy for this condition. It goes to the root of the trouble and overcomes despondency.

After we finished our shopping we strolled up the Avenue. I had just spoken of going home when we met Horace Sanders.

"Will you young ladies do me the

honor to have lunch with me?" he asked.

"I shall be charmed!" answered Claudia before I had time to ask what to say. He turned a questioning upon me.

"Indeed it will be delightful!" I echoed.

Are You Human?

A little baby. A little child. Don't they appeal to you? Doesn't your heart yearn to pick them up, to cuddle them close to you, to shield them from all harm? sure it does else you're not human. Being human you love them. Their very helplessness makes you reach out in all your strength to aid them. In health there's no flower so beautiful. In illness there's no night so black.

Save them then. Use every precaution. Take no chance.

When sickness comes, as sickness will, remember it's just a baby, just a child and if the Physician isn't at hand don't try some remedy that you may have around the house for your own use.

Fletcher's Castoria was made especially for babies' ills and you can use it with perfect safety as any doctor will tell you. Keep it in the house.

Children Cry For Fletcher's CASTORIA

Do the People Know?

Do you know why you are asked to call for Fletcher's Castoria when you want a child's remedy? why you must insist on Fletcher's? For years we have been explaining how the popularity of Fletcher's Castoria has brought out innumerable imitations, substitutes and counterfeits.

To protect the babies: to shield the homes and in defense of generations to come we appeal to the better judgment of parents to insist on having Fletcher's Castoria when in need of a child's medicine. And remember above all things that a child's medicine is made for children—a medicine prepared for grown-ups is not interchangeable. A baby's food for a baby. And a baby's medicine is just as essential for the baby.

The Castoria Recipe (it's on every wrapper) has been prepared by the same hands in the same manner for so many years that the signature of Chas. H. Fletcher and perfection in the product are synonymous.

Lima Theatres Offer Good Bills News and Gossip.

(BY ESMER WAGNER)
If you've ever entertained a secret liking for the glittering and bejeweled life of the underworld, as portrayed in the movies, go see "The Deep Purple" and be quickly disillusioned. Many who went to see the stage production of the same name will doubtless remember the funny little left in your mouth, and when you have watched the screen version you'll feel like taking a long walk in the country air.
Crooks is crooks' but this particular gang is small and mean enough to steal from a poor, blind man, and take particular delight in hurting every woman with whom they come in contact. Quite different from the robber-heroes we are accustomed to seeing.
Miriam Cooper is cast as the appealing little victim of their dastardly schemes, and is quite successful in the part. She is a charming little thing with appealing dark eyes and manages to enlist the sympathy of the entire audience. And when her dreams of love and clothes and good times begin to materialize, you can't help being glad. Only she seems to have a particular delight in turning her black orbs heavenward, frequently and fervently.
W. J. Ferguson, who takes the part of "Pop" Clark does some of the best acting in the production. He is a thoroughly terrible old buzzard, who has neither morals nor honor. The others in the cast seem to understand their parts and act them accordingly.
"The Deep Purple" will interest you if you care to see it. But it's a mighty poor cure for the blues.

BOY FOUND CHAINED TO POST: MOTHER ARRESTED
INDIANAPOLIS, Ind. — Andy Deuser, aged 12, is in the detention home at his own request and his mother, Mrs. Rose Deuser, and brother, Louis, 20, face court

charges as a result of a charge by neighbors that the boy had been chained to a post in a barn and made to stand there for more than 15 hours.

According to the charges, Louis Deuser chained Andy to the post in the afternoon and he was so confined until boy friends released him the following morning by filing the chain links. The lad was secured in such a manner he could not lie down, it was said.

TREND OF LUMBER PRICES UPWARD

Reports of Slump Disproven by Dealers' Statements

Prices on lumber and other building materials, which a few weeks ago gave evidence of a decided slump, have rallied and at the present time are higher than the schedule for late November. Reports that the bottom had dropped out of the prices of yellow pine and other materials are disproven by statements from various firms of lumber dealers in the city. Measures to relieve the housing conditions in Lima are expected to bring about a revival of building operations soon.

E. S. Coon & Co. state that the wholesale market is strengthening. Several weeks ago, they say, in the face of a slackened demand for lumber, many cars were started from the source of supply in the south, for St. Louis and other cities, with the expectation of being sold while in transit and re-routed after reaching their original destination. Mills are shutting down in the south as producers are getting nearer to the end of the supply of first growth timber. Production is being halted, although it is stated that the visible supply is sufficient to last for 20 years. Mill prices have not weakened, Coon & Co. state, save on oak floor, which is expected to make a drop in price. This material has had no fixed price. Recent advances on lumber have been from \$3 to \$4 per thousand feet, this company reports. Coon & Co. believe that building activities in Lima will revive in the next few weeks, as the necessity for something being done to relieve the housing situation asserts itself. They see no hope of lower prices soon on building materials.

At the office of the Lima Lumber Co. the information was afforded that a lowering of prices a few weeks ago of from \$1 to \$2 per thousand has been followed by a recovery ranging from \$2 to \$10, due to wage and freight rate increases. H. S. Monton states that conditions are now existing preclude the possibility of any reduction in lumber prices. The market indicates still further increases, dealers say.

CANDIDATE FOR GOVERNOR MAKES VISIT TO LIMA

Congressman Roscoe C. McCulloch, of Canton, spent Friday morning in Lima after reaching this city late Thursday night in the course of an automobile tour of the state in his campaign for the Republican nomination for governor.

Together with Frank K. Norwood, of Canton, chairman of the Republican central committee in Stark-co., Congressman McCulloch spent the morning here meeting Allen-co. Republican leaders and other friends in this city.

The McCulloch party came to Lima last night from Marion where the members had attended the Harding notification ceremonies. The McCulloch party left at noon for Wapakoneta.

KAHLE AND SCOTT APARTMENTS SOLD TO IRETON BROS.

Two of the most important real estate deals of the summer were closed Thursday when the brick apartments, known as the Kahle-apts., 118 S. Main-st., were sold by Walter M. Scott, to Ireton Bros. grain dealers. A duplicate of the same apartment, at 708 W. Market-st., which were also owned by Mr. Scott, were likewise purchased by Ireton Bros. The consideration of the two sales was \$66,000.

The deals were made by the E. M. Gooding and Son Real Estate agency. Both buildings, numbering six separate apartments in each, were built on the same plan by P. A. Kahle, Lima real estate dealer, several years ago. Ireton Bros. purchased the apartments as an investment.

COUNTY SCHOOL SPELLING CONTEST NEW FAIR FEATURE

The county schools will hold a spelling bee on August 24, as a new feature of the Allen-co Fair, according to County Superintendent Argabright. The number of representatives reported from the districts are: Perry 4, Monroe 1, Bath 6, American 6, Shawnee 2, Spencer 1, Amanda 5, Marion 5, Richland 1, Beaver 2, Jackson 7, West Minister 7, Bluffton, Lafayette, Auglaize, Sugar Creek, Elida, Spencerville, Beaver Dam and West Carlo are the only districts that have the full quota of contestants. Forty-nine contestants have been reported.

A prize of \$5.00 will be given the victor in each district. The nine best district winners will then compete for the county honors. The three prizes for this event are: \$5, \$3, and \$2, respectively.

PETIT LARCENY CHARGE

S. O. Kramer, 27, 752 Holly-st., was arrested by officers Thomas and Cole, of the Lake Erie and Western railway, on a petit larceny charge.

MAKE WAR ON NON-LAYING HENS

University Man and County Agent Plan Campaign

Posters are being distributed by the County Farm Bureau thru out the county to get the farmers interested in the poultry demonstrations that are to take place August 13 and 14. Prof. Dakin of Ohio State University and County Agent Van Natta will have charge of the demonstrations. Prof. Dakin, who is an expert on the subject, says: "A hen that is laying has a good appetite and keeps her body full of food. The size of the abdomen is a very good indication of the laying condition of the bird. Hens that are at present in the process of moulting are not laying."

It has been found profitable in many other counties to cull out the non-laying hens and Prof. Dakin claims that if it is done properly it

will save Allen-co farmers thousands of dollars. The demonstrations will be given in different parts of the county so that a large number of farmers will be able to attend them.

TRAFFIC VIOLATION

W. F. Walters, 59, Newcastle, Ind., arrested Friday morning on a charge of driving an automobile on the wrong side of the street was arraigned in criminal court, pleaded guilty and was fined \$5.

GRAIN CROPS, SAVE WHEAT, GIVE PROMISE OF A BIG YIELD

Except for wheat, Allen-co crops are expected to be up to former years, or even better, according to County Agent Van Natta. The wheat crop here, the same as in all other sections of the country, has been injured by the Hessian fly and other troubles. "The wheat crop will not be more than 50 per cent normal, if it is that much," Van Natta said. "The corn the rather slow will probably turn out to be a record crop. Oats and barley are both up to normal this year, as also are most of the less important crops."

The Shawnee Country club was the scene of a delightful social affair Thursday when twenty-four golfers participated in a mixed foursome. The playing of the two teams with Warren McLaughlin, and Charles K. Ball, professional, as captains, resulted in a tie which is to be played off in the near future. Mr. McLaughlin's team included: Miss Gertrude Patey, Dwight Bayly, Miss Rose Agertter, Thomas McLaughlin, Mrs. Dwight Bayly, Mr. and Mrs. H. S. Mrs. Charles A. Hoyer, W. Market-st., charmingly entertained with a luncheon-bridge at her home on Friday for the pleasure of Mrs. Allan Booth, Pontiac, Mich. The small tables were arranged in the sun parlor, which was made beautiful with baskets of garden flowers. Following the luncheon bridge was played through the afternoon. Guests, who included only intimate friends of the honored guests, were: Mrs. Frank Mitchell, Mrs. George Vail, Cleveland, Mrs. Jack Ramsey, Mrs. Frank Mairo, Mrs. Rondo Croy, Mrs. H. M. SILK FROCK WITH OLD-TIME CHARM

By ELOISE.

For the more formal affairs of the summer there is nothing prettier and more youthful than a taffeta. Taffeta is the organ of the silk world. It has all the charm and daintiness of the cotton goods with the splendor of the silk fabrics which makes it suitable for the most formal occasions as well as the less formal affairs. For the formal wedding of mid-summer or the evening dances there is nothing quite so alluring as a soft taffeta in one of its many captivating shades.

This bewitching frock is just the thing for the bride attendant. It is made of sky blue taffeta. The guffings of taffeta which form a quaint trimming and the dropped shoulder effect of the blouse give an old-fashioned charm that is irresistible in a modern frock. The skirt is short and full with a front panel of exquisite lace and extended hips. Bows of rose colored ribbon under the fall of lace and a narrow belt of the ribbon at the waistline add a French touch which completes the picture.

Miss Dorothy Hamlin, Akron, is the homemaker of Miss Ruth Hawther, W. Market-st.

A number of Gram-Bernstein girls and friends enjoyed a picnic at McBeth Park Wednesday evening. Dancing was enjoyed following the supper.

Those attending the affair were: Misses Mary Quinlan, Edna Watson, Doris Ballinger, Elizabeth Wisterman, Gladys McClain, Ruth Barndt, Charlotte Steve, Blanche Feth, Pauline Vossler, Lola Roberts, Rhea Dixon, Etahle Ferguson, Myrtle Hago, Gladys Talbot, Blanche Wisterman, Hazel Moyer, Jessie Reese, Florence Jones, Lora Jacobs, Claudia Young and Vera Ronsculp.

EMERALDS NOW HELD AS RAREST AND MOST VALUABLE OF GEMS

CHICAGO — For the first time in the history of the world, those varied in the history of jewels declare, the emerald has become the rarest and most valuable of precious stones.

The scarcity is due to the fact that the emerald mines of Colombia, in South America, which are owned by the Government, have not been worked for four years. These mines were once operated by the Indians, but were sealed and hidden in the days of the Spanish conquest. They were rediscovered a few years ago.

Before they were shut down they supplied 95 per cent of the world's emeralds. The 5 per cent trickle of emeralds from other countries means practically nothing in the world's markets. With the world's supply of emeralds cut off for four years no new emeralds have been coming into the markets and prices have risen tremendously. A five-carat emerald recently sold in London for \$3,500 a carat. Good emeralds are now higher priced, carat for carat, than either diamonds or rubies.

The Best Dollar

You have one dollar that is more valuable than your other dollars; it is the one you deposit in a savings account at five per cent interest.

This dollar grows larger while those you try to keep in your pocket grow smaller.

Then there is an attraction about your savings account dollar that draws other dollars to it. It gives you a desire to put others with it to keep it company and let all grow together.

Your money deposited in this way is not withdrawn from circulation, but is loaned upon real estate and helps someone buy or build a home.

Try the plan. The Allen County Savings and Loan Company welcomes new savings accounts whether the amounts be large or small.

LOVE AND MARRIED LIFE

BY IDA McGLONE GIBSON

JOHN'S MONEY SPENDING HABITS

"Where do you want the twin beds put?" called John.

"I thought it was decided," I answered, "that you and I were to have the upper rooms on the west side of the house."

"All right," he answered, "but you might come out and tell me where you want the rest of the things."

"Oh, looky here, John! I want to talk to Katherine," called Alice.

"You know where to put that little collection of furniture that you had over at mother's."

"Little collection," snorted John as he came into the room, "why there are two van loads."

"Well, John, you get the beds fixed for me and I will try and have the men send up a few cheap dishes and kitchen utensils, and we can get along with them until my mother's spode and china comes from the old house."

"Oh, are you having more things sent from your mother's house," asked John in a relieved tone.

"Why, yes; I have had nearly a carload sent down," I said.

"Will you be ready to go shopping tomorrow," Katherine, interrupted Alice.

"Rough Talk by John

"She is not going shopping until we find out just what we want," said John roughly.

"Well, John, I must have a number of things, if you want to get away from the hotel right away."

"Then for heaven's sake get them," said John in exasperation.

"I feel just as tho I were in a taxi with the meter working double time."

"Why don't you take the car and go with Alice and buy the things this evening, Katherine?"

"Do you want me to open a charge account again at Blanks?"

John hesitated a moment. "Yes, yes, go on and do it," he answered, "but I hate to let them think I have forgiven them for the day that they treated me about those baby do-dad-dies."

"Yes, it is too bad to have to eat your own words," laughed Alice.

"Oh shut up and go on," was his gruff reply.

"I am determined to get into this house tomorrow night, if possible."

"Katherine, do you intend to take the baby over to the new house before it is in some sort of order and you are able to get servants to help you take care of it?" asked Alice.

"Not at all, my dear. I haven't the slightest intention of doing such a thing," I answered.

"Best Thing to Do

"I think that the best thing to do is to go to the intelligence office and find some one to help run the house, then," was Alice's comment.

"How many servants do you think you are going to need in that big house?" she asked.

"Well, it seems to me that the least I can get along with is a maid and a cook and a laundress, Miss Parker and the chauffeur."

Alice laughed. "I don't think John will reduce expenses much," she said.

"He must remember that he bought the house, not I."

"But when he bought, my dear, he thought that you were a wealthy woman, with all wells running a million a minute."

"Alice," I asked solemnly, "don't you think that John has money enough to keep up this house that we are moving into?"

"Yes, dear. He has plenty of money if he would not try to gamble on the stock exchange. I am glad he purchased the house, and I hope that you will furnish it beautifully, for it will keep him from spending that money with his brokers. However, it is dollars to doughnuts that he never would have bought it, had he not thought that your money was going to pay for it and its upkeep."

"Why, he couldn't think that."

DIARY OF AN ENGAGED GIRL

BY PHYLLIS PHILLIPS

THE FAMILY CELEBRATES

Dear old dad opened a bottle of champagne in honor last night at dinner when I told the great news. Everyone was most sweet and happy in my success. Even mother was carried away, despite the fact that art is the end of all true home life, to her way of thinking.

Nanny suggested that we frame the wonderful check and hang it on the dining room wall. But that would be over-sentimental. The champagne was perfect, and we sat about the table and talked and talked after we had finished dinner.

Of course I had to fuss up about having a studio of my own, and that caused a lull in the gaieties, for a minute, for mother, looked so hurt that I had kept this from her. I explained to them, however, that I had been driven to do so by an overpowering creative spirit and urge, and by the knowledge that if I did not have absolute peace and quiet I would not be able to accomplish anything.

Father understood this, of course, and pointed out to mother just how he felt on the same subject and how he never permitted anyone to come into his private office when he was thinking out a new idea.

This helped the delicate situation along nicely, and I threw that beloved ally of mine a grateful look over my champagne glass. Dear daddy, if ever a man deserved a place on the golden throne, it is he.

In the end mother forgave me, as she always does, and because she was really so proud of my accomplishment. If art meant fame, why she would not be so again it as in the past, for mother loves people who do big things just

as much as anyone else does. Let me sell another work of art within a reasonable time and she will be the very first one to see that I am a wonder, acclaim it, and fight for my rights, in the line of peace and quiet, just as hard as she can! Of such stuff are mothers made, bless their dear, loyal hearts.

Jack came in later in the evening and he in turn was fairly taken off his feet by the great news. Laura, good old sport, had not told him, even tho she knew that she was bursting to do so. She knew that it would take away from me some

of the pleasure of surprising him. And he was surprised. All of that. What an evening we had then, planning for great deeds to come, and pictures for the future. Jack is really more proud of me and my work than I ever dreamed possible. Life smiles at me from every corner just at present. I feel so elated that I could cry for joy and I shall in a moment I know, for it's late, late at night, and everyone is in bed but myself, so I can let myself go.

Success, so long only a word to me, and now a very real reality! Success that I thought was impossible for anyone under twenty-five years of age walking into my hands and life as easily as it did this afternoon! Is it any wonder that I felt like weeping for excessive joy?

To think that in a few short weeks my head of Jean will be on news stands all over the country and even in Europe! I float with the intoxication of this new delight.

Dear Giver of all good things, I thank you so much for this success of mine. It is a golden moment in my life that I will never forget, no matter what pinnacles of fame I may rise to in the future. (To be continued.)

town who really makes more money than John, but he has never saved any of it. He does not even have the luxury that other people would have under the same circumstances. He just lets it dribble thru his fingers and then he is angry because he has been such an idiot and takes it out of those who are near him.

"You don't like your brother very well, do you Alice?"

"Yes, Katherine, I like him very much. He is my only brother, you know, but that is the reason why I probably see his faults quicker than anyone else. Like many other men who will not listen to reason and who only think of themselves and their own pleasures, forgetting that the greatest pleasure in the world is making someone besides themselves happy, my brother John is always reaching for something, he knows not what."

Success, so long only a word to me, and now a very real reality! Success that I thought was impossible for anyone under twenty-five years of age walking into my hands and life as easily as it did this afternoon! Is it any wonder that I felt like weeping for excessive joy?

To think that in a few short weeks my head of Jean will be on news stands all over the country and even in Europe! I float with the intoxication of this new delight.

Dear Giver of all good things, I thank you so much for this success of mine. It is a golden moment in my life that I will never forget, no matter what pinnacles of fame I may rise to in the future. (To be continued.)

Life smiles at me from every corner just at present. I feel so elated that I could cry for joy and I shall in a moment I know, for it's late, late at night, and everyone is in bed but myself, so I can let myself go.

INDUSTRIAL LEAGUE CUP SCHEDULED FOR NEW OWNER

BY JOE BERNSTEIN

WITH the Deisel Wenner Industrial league baseball team almost as safe in the lead as they could be, it looks like the Starret cup that was won by the Garford outfit last year, is due to change hands.

There are just five scheduled games for each of the eight teams to play until the end of the season, after this Saturday. The cigarmakers have a clean record thus far with a percentage of one thousand gained thru six straight wins and not a single loss. That puts them in a pretty nice way.

Locomotive and Ohio Steel rate second to the cigarmakers and are tied for the honors with five games won and two lost, each.

The standings for the week in the Industrial league are as follows:

Deisel Wenner	6	0	1.000	Gramm Bernstein	3	3	.500
Locomotive	5	2	.775	Solar Refinery	2	4	.333
Ohio Steel	5	2	.775	East Iron	0	6	.000
Garford	4	2	.667	Chalmers	0	7	.000

Saturday will see all of the teams in action. East Iron and Locomotive will meet at the Murphy-st. diamond in the first game of the afternoon. Ohio Steel and Gramm Bernstein will complete the card in north Lima.

At Fairport park, Solar will attempt to give the league leaders their first defeat of the season, while Chalmers and Garford are slated for the second game there.

The real battle in the Industrial league this season do not seem to be for first, but are down a little lower, between the low first and high second division teams. They are all fighting to get into the upper half of the final standings.

SLUGGING YANKS ARE EDGING UP

For the second game of the crucial series between the Yanks and the Indians, the New York outfit took a victory.

Laying up to their reputations as sluggers, they chased the Ohio team's hurler to the showers, one after the other until finally at the end of seven innings, the score stood 11 to 3 for Babe Ruth's team mates.

It places the Tribe in a serious position, with but one game intervening between themselves and second place. A defeat today may see the Yanks in first and Cleveland in second.

Rain, darkness and other inclement weather conditions aided the New

York outfit by bringing the game to a close before the regular nine innings. You can't tell what might have happened had the contest gone the full length, but it looked like the Yanks had a pretty safe edge. Eight runs is a good enough lead for any team.

Peckinpaugh took the honors of the day when he double Babe Ruthed the ball inside of two innings. He was largely responsible for Stanley Coveleskie being given a pass to the shower, for his two four base clouts, in the first two innings shattered the nerve of the leading Cleveland hurler, as they would have shattered the nerves of any star hurler.

GIANTS COMPLETE DAY FOR NEW YORK

'Twas the end of a perfect day for New York when the Red-Giant game came to a close at Cincinnati.

The championship outfit of the National League has apparently started on another losing streak for it dropped the second game of their series with New York—this time by a score of 2 to 1.

The game looked almost like a pitchers' battle between the plucky little Cuban, Luque, and the New York star, Barnes, but Barnes took the honors when he allowed only six scattered hits, Luque allowed four,

one of them a triple, and was taken out and Elmer finished the game.

Barnes apparently hit the Reds eating out of his hands for out of the six bingles the champs were able to glean only one run to save themselves from being shut out.

Unquestionably it was a big day for New York, for it saw the Giants slip into the first division as a result of the win over the Reds, and it saw the Yanks get within easy striking distance of the first honors in the American league.

New York is happy.

FINDLAY TO PLAY HERE SUNDAY

Bernie Halloran has a real surprise for the fans this Sunday. He has dug up Lima's old baseball rival and has signed them for a battle at the Murphy-st diamonds for this Sunday.

Findlay is the team that will furnish the opposition for the Lima Independents outfit, and it promises some interesting pastime.

In the old days of the Buckeye league, Findlay and Lima were arch enemies, and there is some expression of a similar feeling today, on the part of the old city outfit.

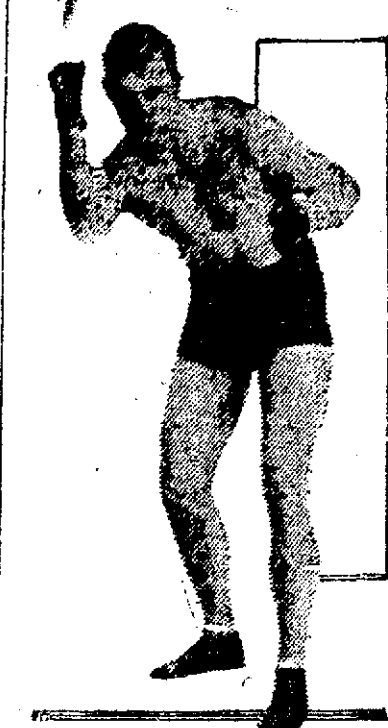

Del Drake, former Detroit American outfielder is manager of the Findlay outfit and writes: Halloran that his team has been cleaning up this year.

Drake plays in the outfield for his own team and is said to ably impress the fans with the fact that he was once a big league star.

Cappy Wesels has at last come back to the city and is ready to work at the Murphy-st grounds. He'll be back of catcher, Sunday.

BRENNAN WANTS ANOTHER CHANCE AT JACK DEMPSEY

Bill Brennan

"Don't think Dempsey put me away when I fought him two years ago," says Bill Brennan. "The records have me down as being stopped in the seventh round, but the mat had so much rosin on it that when I swung a right at Jack I missed and my foot stuck to the mat and over I went, turning my ankle in the fall."

"I staid with him, tho, till the seventh, when I was unable to stand up and had to quit, but Dempsey did not slip me the K. O.," Brennan says. "I am fast and hits like a mule's kick, as he recently demonstrated by his K. O. of Ole Anderson. He ranks with Fulton in the big boys' division."

Brennan probably will be the next opponent of Dempsey. Several cities have recently made bids for a fight with Dempsey battle.

WATCHING THE SCOREBOARD CHANGE

THURSDAY'S HERO. — Roger Peckinpaugh, The Yank shortstop hit two homers off Coveleskie in the first and second innings and helped the Yanks beat the league leaders 11 to 3.

The Braves trailed the Cards for eight innings, but came thru with a two-run rally in the ninth that beat the Rickeys 5 to 4.

Dick Kerr, the wee White Sox hurler helped win his own game by singling in the eighth inning and scoring on a sacrifice fly. Score 2 to 1.

Weich's single with the bases filled scored a pair of runs and gave the Athletics a 2 to 1 victory over Detroit. Veach's homer gave the Tigers their lone tally.

Zachary pitched the Senators to a 5 to 4 victory to the Browns and showed Burke's men out of the first division.

YOUNGSTOWN, O. — Promoter Mick Stambaugh today turned over to the Youngstown boxing commission correspondence he has had with Richie Mitchell, Milwaukee pugilist, with the request that the commission take action to bar Mitchell from Ohio because of failure to appear here against Mel Coogan of New York.

Mitchell has been given three postponements, Stambaugh said, and two weeks ago wired that he could appear July 26. Yesterday he telegraphed his ankle had not mended sufficiently and he would have to cancel.

NEW YORK. — William A. Brady, theatrical producer, as agent of C. A. Cochran, London fight promoter, offered Jack Dempsey 50,000 pounds for fight with Carpenter in London at the end of year.

YACHTS IN CRUCIAL TEST

HIGHLANDS, N. J. — A severe thunder, lightning and rain storm which struck the international cup course Friday morning, had given way to a dense fog by the time the Shamrock and Resolute were had been put aboard the wet decks of the racers.

A four-mile breeze from the southwest was blowing, giving promise of a clearer day later.

Shamrock IV came out of dry dock and was towed back to her moorings. A thin film of seaweed had been rubbed from her hull with rags and the lead keel plates carefully scraped and polished. A slight repair to her "traveler" and the fitting of iron ankles under the deck which was somewhat strained at this point, revealed that the challenger had been compelled to go easy during her tacking bouts inshore in Wednesday's races.

With the repairs Captain Burton and his crew expressed confidence Friday morning that Shamrock would show the way to Resolute over the triangular course Friday and annex the lone victory that is separating her from the cherished cup.

In yachting circles, where the challenger is considered the superior of the defender over the three-legged course, it was considered that Lipton's green cup hunter was to lose or win the cup Friday.

A victory by Resolute would even the score at two race each and would make the decisive heat for the cup over a windward and leeward course, which is to the liking of the American craft.

The decision of the Lipton afterward that the benefit derived from the use of a larger topsail and head-ropes was sufficient to offset the seven minutes and one second handicap has resulted in two things. Shamrock will sail today with smaller sails which will cut her handicap to six minutes and 40 seconds and she will use a shorter topmast which was stepped Thursday.

While Friday's race may not be the deciding contest, it will be the most crucial of the series.

Iron Mine

International league players are howling at the condition of the new Syracuse playing field. In a game Baltimore played there Boley of the Orioles slid into second base and his feet hit something hard that went flying into the air. Boley picked it up, out of curiosity, and it was a stove-lid. After Rocks as big as baseballs are said to abound in both infield and outfield.

Uniform Change

A great change has come over Arthur Fletcher's appearance since he joined the Phillies. When in the uniform of the Giants, as all will remember who ever saw him play, Fletcher always wore the collar of his blouse turned up about his ears.

With the Philly uniform he now wears has no collar, and for the first time in years the fans can see the wrinkles in Art Fletcher's neck and the back of his head. Fletcher has no explanation of his old habit of wearing his collar turned up, except to keep the sun off his neck.

KAZOO MEET TO CLOSE WITH PACERS

KALAMAZOO, Mich. — Three events for pacers were on the card for the last day of racing on the mile track in the Grand Circuit meeting here.

The 2:06 pace for Burdick hotel purse of \$2,000 was the feature contest on today's program. Red Lance, lot, winner of the opening day's stake, Symbol S. Forrest and other speedy horses were entered for the tilt.

Another event which attracted an excellent field and much interest was the three-year old pace for the Michigan railway, purse of \$1,000.

The 2:12 trot, open, was the first on today's program and the 2:16 pace open, wound up the mile contests tomorrow, the closing day of the meeting having been given over to a half mile track program.

Oppose Split

Split season advocates were voted down at the recent South Atlantic league meeting. Instead the league directors voted to be more liberal in the use of "class" players and to continue the race with every club promising to strengthen its team so as to stop the leading Columbia bunch. Eight "class" men instead of five now can be used on a team.

ANNOUNCE RACQUET TOURNEY

A CITY tennis tournament under the auspices of the Y. M. C. A. has been announced by Physical Director Lemon of the Association.

Entries for the meet may be made at the desk of the Y. M. lobby at once, and will remain open until the first of August when the tournament is scheduled to start.

Both single and double matches will be conducted in the tournament with anyone in the city eligible for a trial at the city title. A cup will be awarded to the winner of the tournament, it has been announced.

Considerable material, according to Lemon, is to be had in the city. He expects the entry list to be large enough to carry the finals for the month. At that time he plans the championship matches in both singles and double will be played.

The tournament will be conducted by elimination, with a match consisting of three sets, the winner to take two. A defeat in one match eliminates the defeated player or players from the tournament.

The entry list opens at the Y. Friday. A fee of twenty-five cents is required of each entrant to show good faith. As soon as all entries are closed, the pairing off of the players will be announced and the matches will be started.

Lemon estimates that the tournament will take probably the entire month of August before a city champion can be declared.

He especially impressed the idea that the event was open to everybody in the city who can wield a racquet. It is with the idea of recovering the interest in the court game that the tournament was brought about.

At present, the popularity of the contest is attested to by the frequency with which the city courts at the college grounds are being used. The are seldom vacant. Private courts about the city are kept busy constantly.

SEALTS WINS AGAIN IN TOURNEY

Roy Sealts, for a second time, took the honors in a billiard tournament at the K. C. building, completed Thursday night.

The original field of 16 entrants narrowed down until three were left, and a three cornered match was played as the final and deciding contest.

C. Johnson, Howard Barrington and Sealts were the three who participated. The match was close thru out with first one leading and then the other. The final score, however, Sealts the honors with 25 points to Johnson's 24 and Barrington's 23.

Sealts won the first of the tournaments from A. Mulcahy a week ago by a close score.

As yet, the winner of the two tournaments stand unopposed for honors of the city.

ing of the three-in-five system will be abandoned entirely. All of the races with the exception of those for colts will be decided on the three-beat plan, while the colts events will be raced the best two in three.

For the twenty races which are to be decided during next week's meeting a total of \$25,000 has been hung up for the stakes and class events. The entire list is the largest which Columbus ever had for a mid-summer meeting and includes nearly all of the stars in the racing and training brigades.

CHICAGO.—If St. Paul were alive today he would be an editor of a newspaper. Dr. Frank G. Beck, Chicago tells convention of pastors.

Considerable material, according to Lemon, is to be had in the city. He expects the entry list to be large enough to carry the finals for the tournament into the last week of the month. At that time he plans the championship matches in both singles and double will be played.

The tournament will be conducted by elimination, with a match consisting of three sets, the winner to take two. A defeat in one match eliminates the defeated player or players from the tournament.

The entry list opens at the Y. Friday. A fee of twenty-five cents is required of each entrant, to show good faith. As soon as all entries are closed, the pairing-off of the players will be announced and the matches will be started.

MUTT AND JEFF—SURE! A GUY IS LIABLE TO MAKE A PUN'K GUESS OCCASIONALLY—

By BUD FISHER

Short Shavings

A certain young actress had a small part in a "war" drama—a very small part—and she was not satisfied. So one morning, after rehearsal, she set out to interview the boss.

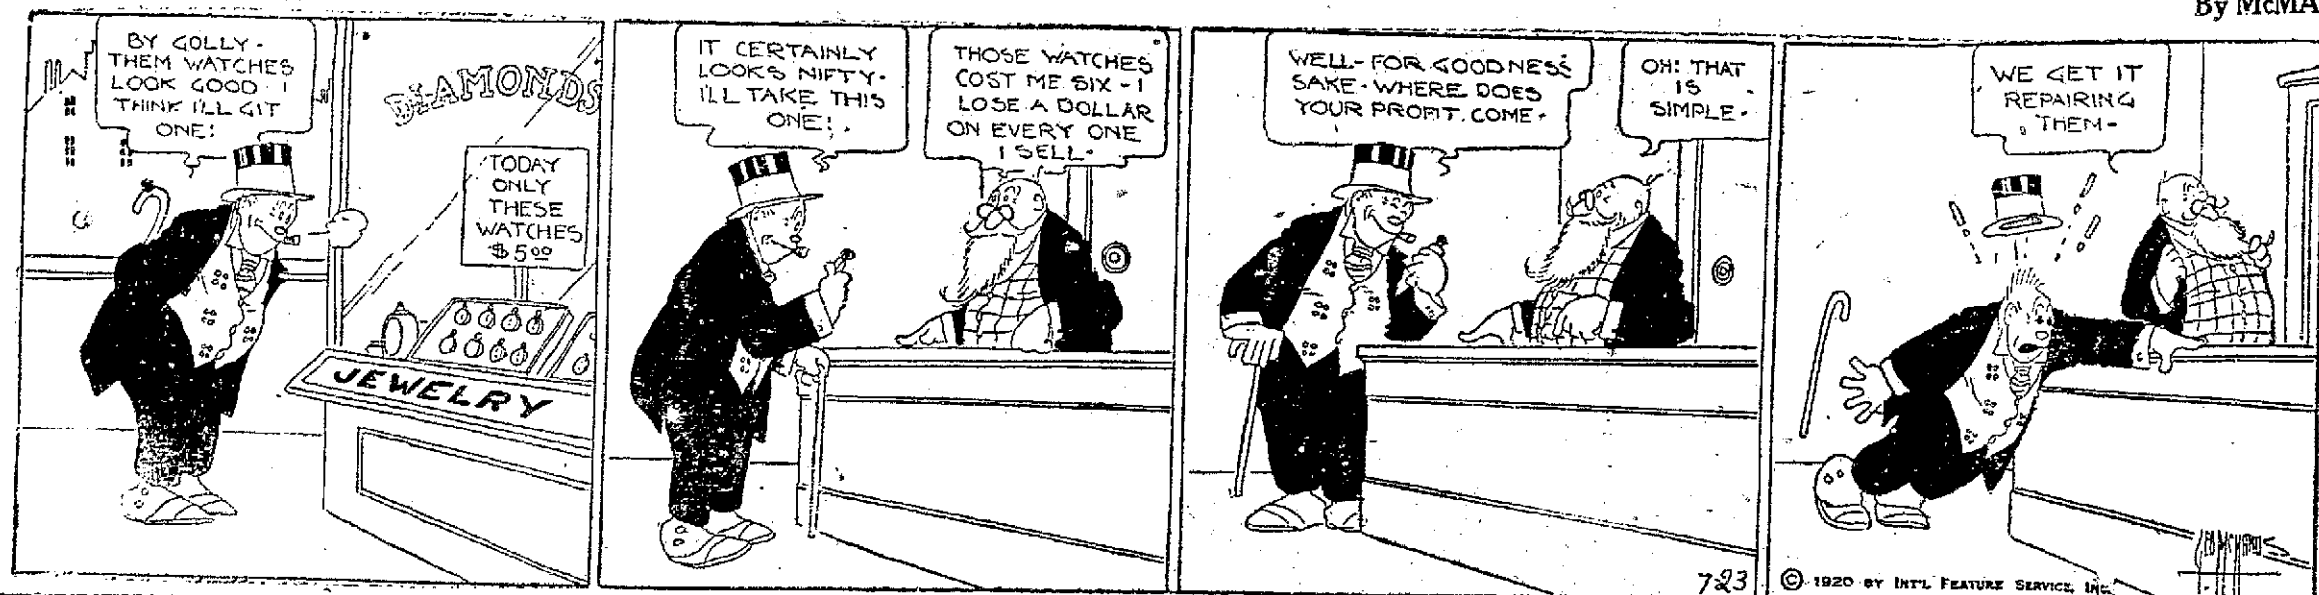

"I have only one line in the first act," she pouted, "and but one in the second. Couldn't you give me a line for the third act, also?"

The actor-manager thought for a moment. "Well, yes," he replied. "When the bombardment scene is on and the hero is crouching in his dug-out you may enter and say, 'Here is a dud.'"

"Oh, thanks!" she exclaimed. "And do I bring an unexploded shell on the stage with me?"

"No," answered the actor-manager. "It's not a speech, my dear; it's a confession."

JUDITH OF BLUE LAKE RANCH

JACKSON GREGORY

A SIGNAL-FIRE?

Lee left Hampton securely bound and under Tommy Burkitt's watchful eyes in the old cabin, and rode straight back to the ranch-house. Marcia was not yet in bed and he made his first call upon her. Marcia was delighted, then vaguely perturbed, as he made known his errand without giving any reason. He wanted to see the note from Judith. Marcia brought it, wondering. He carried it into his room and compared it carefully with the one of her handwriting which he kept there. The result of his study was what he had expected; the writing of the note to Marcia was sufficiently like Judith's to pass muster to an uncritical eye, looking, in fact, what it purported to be. A very heavy scrawl. But Lee decided that Judith had not written it. He slipped it into his pocket.

Tripp was waiting for him; impatient and worried, when he came back from the Upper End. From Tripp he learned that one of the men, a boy named Bud, had been low-jacked, had unexpectedly asked for his time Saturday afternoon and had left the ranch, saying that he was sick.

"He's the chap who brought the fake note from you," said Lee. It's open and shut. Doc. Another one of Trevors' men that we ought to have fired long ago. The one thing I can't get, is why he didn't do a finished job of it and hang around until Miss Sanford left, then get away with the note. It would have left no evidence behind him."

"Shut must have locked her door and window when she went out," was Tripp's solution. "And probably he didn't hang around wasting time and taking chances."

Tripp's boyish face had lost its youthful look. His eyes, meeting Lee's steadily, had in them an expression like Lee's.

"If it's Quintinn—" Tripp began. Then he stopped abruptly.

Lee and Tripp were together in the office not above fifteen minutes. Then Tripp left to return to the Lower End, to get the rest of the men out, to help in the big drive of cattle and horses which must be returned to the shut-in valleys of the Upper End. Lee went to the bunk-house, slipped revolver and cartridges into his pockets, took a rifle and rode again to the old cabin.

"It's Trevors' big last play," he told himself gravely, over and over. "He'll be backing it up strong, playing his hand for all that there's in it, and he'll have taken time and care to fill in his hand so that we're backing a royal flush. And there's only one way to beat a royal flush, and that's with a gun. But I can't quite see the whole play, Trevors; I can't quite see it."

There were enough men to do the night's work without him and Tommy Burkitt, and Lee gave no thought now to Carson, swearing in the darkness of some shadow-filled gorge. He did not know what the morrow's work would be for him, but he made his preparations none the less, eager for the coming dawn. He fired many slices of bacon while

For a little Lee did not answer. He and Tommy and Hampton, standing among the rocks, turned their eyes together toward the hills rimming in the northern side of Blue Lake ranch.

"I make 'out said Lee slowly, "that Trevors means business and that Carson has got his work cut out for him this morning, Tommy."

For the thing which had caught the boy's eyes was a blaze on the ridge its flames leaping and licking at the thinning darkness, its smoke a black smudge on the horizon, staining the glow of the dawn. And farther along the same ridge was a second blaze, smaller with distance, but growing as it flicked at the dry brush. Still farther a third.

"If that fire ever gets a good start," muttered Lee heavily, "it's going to sweep the ranch. God knows where it will stop. And just how Carson is going to fight fire with one hand and hold his stock with the other, I don't know."

But even then he turned his eyes away from the ranch, sweeping the ragged jumble of mountains about him. Judith was gone. Judith needed him and he did not dare try to estimate the seriousness of her need. What did it matter that Carson and Tripp and the rest had their problems to face back there? There was only one thing in all the wide world that mattered, and he did not even know where she was, north, south, east or west! Somewhere in these mountains, no doubt. But where, when a man might ride a hundred miles this way or that and have no sign if he passed within calling distance of her?

In his heart Bud Lee prayed, as he had prayed last night, asking God that he might come to Judith. And it seemed to him, standing close to God on the rocky heights, that his prayer had been heeded and answered. For, far off to the east, still farther in the solitude of the mountains, rising from a rugged peak, a thin line of smoke rose into the peeling sky.

It might be that Judith was there. It might be that she was scores of miles from the beckoning smoke. But Lee had asked a sign and there, like a slender finger pointing to the brightening sky, was a sign.

He stooped swiftly for rifle and rope and packet of bacon.

"Where you goin', Bud?" asked Tommy.

"To Judith," answered Bud Lee gently.

For in his heart was that faith which was born of love.

PACIFIC SCENE OF NEXT WAR

Australian Premier Sees Japan as Strong Contender

LONDON.—That the next great war will be fought for the mastery of the Pacific was made in a statement authorized by E. G. Theodore, Premier of Queensland, Australia, in

contains sensational denunciation of Japan. Mr. Theodore, who is one of the youngest and most aggressive premiers in the dominions of the British empire, has a leading part in the fight to bar Japanese from Australia. The statement in part follows: "Once we have opened the door over so little tin Australia to a Japanese invasion we could not close it again. Then it must be remembered that every Japanese is a soldier and that discipline and obedience in their army are at the highest point. Their ideas are not parallel to ours."

"Upon one point their views are all directed: They mean to have control of the Pacific and it is probable that the next great war will be fought for the mastery of the Pacific. Further, there is America to consider. The United States has its own problem and has vital interests in the Pacific."

TESTIMONY GIVEN SENSATIONAL

Wife Charges Husband Consorted With Her Daughter

Sensational testimony of all descriptions was offered today in the contested divorce suit of Mrs. Minnie Krieg. She charges him with abuse and consorting with her daughter and he charges she frequented saloons when they were in existence and with being in the company of other men.

one of three saloons when I started looking for her." He mentioned the name of Ralph Hooker, saying he had seen his wife with him. He also said men named Ed Giberson, Alfred Hand and others had visited his home.

Mrs. Krieg in her testimony said her husband cursed and abused her and repeatedly drove her from their home. She charged he consorted with her daughter, Mrs. Stella Ward, provided for her, loaned her money to buy clothing and otherwise influenced her.

Suit for \$5,000 for the alleged alienation of his wife's affections was filed some time ago by Arthur Ward against Krieg, but this was later dismissed, Ward announcing the matter had been cleared up.

The Krieghs lived on a small tract of land on the Spencerville rd near McBeth park. The case was still in progress this afternoon.

AGED INMATE OF COUNTY HOME DIES

David Shobe, 72, inmate of the County Home, died at that institution, Friday morning from a complication of diseases. The body was removed to the Long and Bowersock mortuary.

A son, Marion Shobe, Clatsburg, Ohio, a daughter, Mrs. George Eberman, Eldar, a brother Samuel, Rochester, Ind., and a sister, Mrs. Sarah Smith, Lima, survive.

Funeral arrangements have not been completed.

OWNER GIVES SALOON FOR USE AS CHURCH

WESTON, Wis. — This village has long wanted a church, but never could afford one until prohibition came. Even then its citizens were not wealthy enough to erect a building, but the man who for years had served good liquors with a free lunch came forward and said he had decided to go into another business. He offered the use of his saloon and dance hall for the church, and his home for the parsonage. The first Sunday the church was open he came into town from his farm, took a drink of water from the town pump and sa in the front row during the service.

DIVORCES FEW IN WASHINGTON

Young Woman Lawyer Leaves Capital for Reno

LAWS ARE TOO ANTIQUATED

In Some States Are As Bad As England

WASHINGTON, D. C.—"If you're a lawyer and must live in Washington, don't specialize in divorce; or if you're a lawyer and must specialize in divorce, don't live in Washington."

These are the views of Miss Pauline Floyd, twenty-two, divorce specialist, and acclaimed the youngest woman attorney in the country. To show that she has the courage of her convictions, Miss Floyd is preparing to move her office from Washington to Reno, Nevada, where she hopes to find divorce cases worthy of her talents.

HARD TO GET

"It's harder for a rich man, or a poor man, or any other kind of a man, to get a divorce in the District of Columbia than it is for the dramedy of Biblical fame to penetrate the needle's eye," said Miss Floyd, who has very decided notions as to how liberal divorce laws should be.

"Of course, it may be that the wish is father to the thought," she continued, "but I believe divorce should be as free as marriage—freer if possible. I do not believe, with some, that a divorce coupon should be attached to every marriage license; but I do believe there would be many more happy married people if divorce were much easier to secure."

THE INCOMPATIBILITY CAUSE

"Incompatibility should be ground for divorce in every State. I believe it is more reprehensible for persons who are married to live together when they can't get along than it is for persons who are not married to live together in harmony. Of course, that may sound radical, and it isn't a theory that could be put into practice. Nevertheless, it's my own idea."

"The divorce laws of many States of the Union are as antiquated as those of England. The only difference is that in England some effort is being made to reform the laws, while over here they will live, like the brook, go on like this forever."

"As a general rule, divorce laws work undue hardships on women and are only good for one thing, namely, to give employment to a lot of private detectives. Even so, it is next to impossible for a detective to get sufficient grounds on which a woman in the District of Columbia—and many States as well—may get a divorce. That is particularly true in cases where the only grounds for a divorce are adultery."

MEN ARE CLEVER
"Men are clever. They usually can tell when they are being watched. And they either cease their activities or they put on the soft pedal, and friend wife is left just where she was before, except that she has a detective bill on her hands."

"Of course, I know it's an old, old idea, but if men and women knew that either the husband or the wife could get a divorce for the asking each would exert himself or herself more to hold the love of the husband or wife, as the case might be."

Miss Floyd, who took special courses in domestic relations at the Washington College of Law, says she intends to specialize in divorce and she will go to Reno as soon as she has completed some cases now pending in the District.

HUSBAND KILLED FOR HIRE

Berlin Woman Then Helps Hack
Body to Pieces

BERLIN.—One of the most shocking and gruesome murders in Berlin police annals has just come to light in the discovery that Dr. Hemberger, an "Oberlehrer," was killed at his wife's instigation and that the wife assisted in hacking the body up and secreting it.

Walter Protze, alleged perpetrator of the actual murder, is said to have written his wife later of the crime, urging her to reveal it to the police and claim the 5,000 marks reward to help her out of her financial difficulties.

Frau Hemberger, a woman of 33, was married to the teacher, sixty or thereabouts. Their life was unhappy, and after two children had been born to them, Frau Hemberger moved to another locality. She induced Protze, it is alleged, to entice her husband to her new abode and then shoot him. This he did in the wife's absence, and as she returned he showed her the corpse, saying: "The affair is settled; now you have your peace."

Frau Hemberger then helped Protze dismember the body, packing the torso in an overcoat and throwing it in the river while the remainder of the body was buried in a nearby field. In the course of disposal of the body, Protze was questioned as to what the package contained, and answered without attracting suspicion that it was "meat bought in Schleishandel"—that is, illicitly.

A second woman, believed to have had guilty knowledge of the affair has been taken into custody, but police claim that they have a hard and fast case against Protze and Frau Hemberger.

The case involved apparently no other motive than a desire to be rid of the husband. This is the second

case of a similar nature within a few weeks. The other was that of the wife of a restaurateur in the Wilhelmstrasse who hired two thugs for a normal sum to do away with her husband, after which she planned to flee with the family savings to some nearby country.

Sure Way To Get Rid Of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

TO ALL COAL USERS:

We want to have a few words with you on a subject vital to your interest and your comfort.

We want you to consider whether or not it will be to your advantage to have a reserve spot in the nation's coal industry where a supply will be forthcoming despite the strike and shut-down orders of the United Mine Workers of America.

There are four important coal fields in West Virginia operating non-union. They are the Williamson or Thacker field, the Pocahontas field, the Tug River field, and the Logan field. A portion of the New River field is operated open shop. These four and a fraction non-union fields of West Virginia gave to the country its almost sole supply of coal during the November-December strike of 1919.

These four fields yield an annual production of 40,000,000 tons, or approximately forty percent of the total output of West Virginia.

Five million tons of this total is produced in this, the Williamson field, where the United Mine Workers are endeavoring to enforce an organization.

The Logan field production amounts to ten million tons, Pocahontas and Tug River twenty million tons while the production in the open shop mines of Raleigh and Fayette Counties will add five million tons.

This represents approximately 8 per cent of the total annual coal production and exceeds the average consumption of three states.

The anticipated requirements for the present year are estimated at about 500,000,000 tons of bituminous coal.

By far the largest percentage of this amount comes from fields organized by the United Mine Workers.

The United Mine Workers hold and frequently exercise the power to close all the mines under its control. As an organization it accepts no responsibility for contracts with operators, but closes mines regardless.

It has an extensive political program including the nationalization of mines, five day week, six hour day, the right to bargain with and enforce its demands on the government, and so forth, which it proposes to negotiate through congressional action as soon as it shall complete the organization of all the coal fields.

We throw out these hints as to the purposes of the United Mine Workers that you may realize your prospects for a fuel supply in the event the U. M. W. organization gains the ascendancy over production in all the fields.

Except for two or three states where the coal delivery must be accomplished before the lakes become frozen, there is no such thing as the storage of bituminous coal. The production and delivery of coal is a hand to mouth proceeding. No time is lost for coal between the mine mouth and the furnace that waits for it.

It is quite as much your necessity to have coal in your bin as it is ours to mine it. The interest and the advantages are mutual.

Just a few days' stoppage of all the mines would find the railroads, which consume one-third of the product, unable to move. It would find the industries of the country at a standstill. It would, in the winter season, result in the discomfort of all the homes and all the people.

The four coal fields named have, heretofore, stood between the country and such a disaster; and will stand ready to afford future relief, if permitted to retain their present attitude of independence of the United Mine Workers organization.

The Williamson Coal Operators Association has not the means to carry on an extensive advertising campaign even if it appeared advisable to do so.

We have, however, thought it proper to issue a warning to the public of the evil consequences of a probable mid-winter coal shortage, to the end that the blame may be lodged where it belongs.

There has never been any labor trouble in the twenty-five years experience of this field. There is no trouble now between the operators and the workmen. Wages are higher here than in the surrounding union fields. The majority of the workmen in this and adjoining non-union fields do not want to be brought into the Mine Workers' union. Work is suspended because of the criminal menaces and threats and intimidations by the organizers and pickets. Many of the workmen have petitioned the law authorities for assurances of protection that they might resume work.

This, in short, is the tale of the present disturbance in the coal fields of Southern West Virginia.

We are not soliciting sympathy. But we want the coal using public to know the cause and the spirit of our fight. We wish it understood that our stand against the invasion of the United Mine Workers, while made at a great financial loss, is done in the interest of the permanent good of the public at large as well as of this coal field. Our success in maintaining the independence of our mine affords the only reliance the people have against long and disastrous stoppage of coal production at times in the future.
